G. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). This rule will be effective May 30, 2000, unless EPA receives adverse written comments by April 27, 2000.

H. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use "voluntary consensus standards" (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

The EPA believes that VCS are inapplicable to this action. Today's action does not require the public to perform activities conducive to the use of VCS.

I. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 30, 2000. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

[**IB Docket No. 96-111; FCC 99-325**]

Earth Stations Communicating With Non-U.S. Licensed Space Stations; Correction

AGENCY: Federal Communications Commission.

ACTION: Final rule; correction.

SUMMARY: The Federal Communications Commission published in the **Federal Register** of November 15, 1999, (64 FR 61791), a document revising rules governing application requirements for earth stations communicating with non-U.S. licensed space stations. The Commission inadvertently failed to specify that it was revising only the first sentence of § 25.137(b), rather than § 25.137(b) in its entirety. This document corrects that error.

DATES: Effective on December 22, 1999.

FOR FURTHER INFORMATION CONTACT: Steven Spaeth, International Bureau, (202) 418-1539.

SUPPLEMENTARY INFORMATION: The FCC published a document in the **Federal Register** on November 15, 1999 (64 FR 61791) amending 47 CFR 25.137(b). In FR Doc. 99-29538, published in the **Federal Register** of November 15, 1999 (64 FR 61791), everything in § 25.137(b) after the first sentence was inadvertently removed. This correction adds the part of § 25.137(b) inadvertently removed on November 15, 1999.

§ 25.137 [Corrected]

In rule FR Doc. 99-29538 published on November 15, 1999, (64 FR 61791) make the following correction. On page 61792, in the third column, revise § 25.137(b) to read as follows:

If the non-U.S. licensed space station is in orbit

and operating, the applicant need not include the financial information specified in §§ 25.114(c)(17) and (c)(18) of this part. If the international coordination process for the non-U.S. licensed space station has been completed, the applicant need not include the technical information specified in §§ 25.114(c)(5) through (c)(11) and (c)(14) of this part, unless the technical characteristics differ from the characteristics established in that process.

Needs and Uses: In the Report and Order, the Commission is completing the first phase of its Comprehensive Accounting and ARMIS review by adopting most of its proposals initiated in its Phase 1 NPRM, 64 FR 44877 (August 18, 1999). In the Report and Order, the Commission eliminates the expense matrix filing requirement;

provides large ILECs the option to obtain a biennial attestation engagement to satisfy their CAM audit obligation; establishes a \$500,000 de minimis exception to our affiliate transactions fair market value estimate requirement; and eliminates the 15 day pre-filing requirement for cost pool and time reporting procedures changes. The

Commission substantially streamlines the ARMIS 43-02 USOA report and significantly reduces the reporting requirements for carriers. The information provides the necessary detail to enable the Commission to fulfill its regulatory responsibilities.
