The statutory authorization for this program, and the application requirements that apply to this competition, are set out in sections 7144 and 7146–7150 of the Elementary and Secondary Education Act of 1965, as amended by the Improving America's

Schools Act of 1994 (Pub. L. 103–382, enacted October 20, 1994) (the Act) (20 U.S.C. 7474 and 7476–7480).

Activities conducted under this program must assist educational personnel in meeting State and local certification requirements for bilingual education and, wherever possible, must lead to the awarding of college or university credit.

Priorities

Competitive Priority 1: The Secretary, under 34 CFR 75.105(c)(2)(i) and 299.3(b), gives preference to applications that meet the following competitive priority. The Secretary awards up to 3 points for an application that meets this competitive priority. These points are in addition to any points the application earns under the selection criteria for the program:

Projects that will contribute to a systemic educational reform in an Empowerment Zone, including a Supplemental Empowerment Zone, or an Enterprise Community designated by the United States Department of Housing and Urban Development or the United States Department of Agriculture, and are made an integral part of the Zone's or Community's comprehensive community revitalization strategies.

Note: A list of areas that have been designated as Empowerment Zones and Enterprise Communities is provided in the appendix to this notice.

Competitive Priority 2: Under 34 CFR 75.105 (c)(2)(ii) and section 7144(d) of the Act, the Secretary gives a competitive preference to applications that meet the following priority:

Applications that propose to provide for participant completion of baccalaureate and master's degree teacher education programs, and certification requirements and may include effective employment placement activities; the development of teacher proficiency in English as a second language, including demonstrating proficiency in the instructional use of English and, as appropriate, a second language in

classroom contexts; coordination with programs for the recruitment and retention of bilingual students in secondary and postsecondary programs training to become bilingual educators; and the applicant's contribution of additional student financial aid to participating students.

The Secretary selects applications that meet this priority over applications of comparable merit which do not meet the priority.

Invitational Priorities

The Secretary is particularly interested in applications that meet the following invitational priority. However, an application that meets this invitational priority receives no competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

(1) A page is 8.5" x 11", on one side only with 1" margins at the top, bottom, and both sides.

If you use a proportional computer font, you may not use a font smaller than a 12-point font. If you use a non-proportional font or a typewriter, you may not use more than 12 characters per inch.

The page limit does not apply to the Application for Federal Assistance Form (ED 424); the Budget Information Form (ED 524) and attached itemization of costs; the other application forms and attachments to those forms; the assurances and certifications; or the one-page abstract and table of contents. The page limit applies only to item 15 in the Checklist for Applicants provided above.

IF, IN ORDER TO MEET THE PAGE LIMIT, YOU USE PRINT SIZE, SPACING, OR MARGINS SMALLER THAN THE STANDARD SPECIFIED IN THIS NOTICE, YOUR APPLICATION WILL NOT BE CONSIDERED FOR FUNDING.

Application Narrative and Abstract

The narrative should address fully all aspects of the selection criteria in the order listed and should give detailed information regarding each criterion. Do not simply paraphrase the criteria. Provide position descriptions for key personnel. This package includes non-regulatory guidance (Questions and Answers) to assist you in preparing the narrative portion of your application. Prepare a one-page single-spaced abstract which summarizes the proposed project activities, the expected outcomes, and how the application

addresses the invitational priority, if applicable.

Budget

Budget line items must support the goals and objectives of the proposed project and be directly applicable to the program design and all other project components. Prepare an itemized budget for each year of requested funding. Indirect costs for institutions of higher education which are the fiscal agents for Career Ladder Programs are limited to the lower of either 8% of a modified total direct cost base or the institution for higher education's actual indirect cost agreement. A modified direct cost base is defined as total direct costs less stipends, tuition and related fees and capital expenditures of \$5,000 or more. In describing student support costs for tuition and fees from costs for stipends.

Final Application Preparation

Use the above checklist to verify that all items are addressed. Prepare one original with an original signature, and include three additional copies. Do not use elaborate bindings or covers. The application package must be mailed to the Application Control Center (ACC) and postmarked by the deadline date of February 23, 1999.

Submission of Application to State Educational Agency

Section 7146(a)(4) of the Act (Elementary and Secondary Education Act of 1965, as amended by the Improving America's Schools Act of 1994, Pub. L. 103-382) requires all applicants except schools funded by the Bureau of Indian Affairs to submit a copy of their application to their State educational agency (SEA) for review and comment (20 U.S.C. 7476(a)(4)). Section 75.156 of the Education Department General Administrative Regulations (EDGAR) requires these applicants to submit their application to the SEA on or before the deadline date for submitting their application to the Department of Education. This section of EDGAR also requires applicants to attach to their application a copy of their letter that requests the SEA to comment on the application (34 CFR 75.156). A copy of this letter should be attached to the Project Documentation Form contained in this application package.

Applicants that do not submit a copy of their application to their SEA will not be considered for funding.

Questions and Answers

Does the Career Ladder Program have specific evaluation requirements?

Yes, the evaluation requirements are described in Section 7149 of Title VII of ESEA, 20 U.S.C. 7479.

What requirements must grantees meet related to teacher certification?

The Title VII statute requires grantees to assist educational personnel in meeting State and local certification requirements. 20 U.S.C. 7477. However, because certification requirements vary among States, applicants are given flexibility in designing activities that lead to meeting State and local certification requirements.

May program budgets include costs for items other than student tuition and fees?

Project budgets should reflect the proposed program activities. In addition to student support costs, budget items may include costs for personnel, supplies or equipment, and other reasonable and necessary costs to support developmental activities.

What information may be helpful in preparing the application narrative for a Career Ladder Program?

In responding to the selection criteria applicants may wish to consider the following questions as a guide for preparing application narrative.

- What are the specific responsibilities of districts, schools, institutions of higher education and other partnership organizations in planning, implementing and evaluating the proposed program? How is the program linked to the school district's overall professional development plan?
- What resources and support will each of the consortia members provide? How will resources be integrated to ensure maximum effectiveness of the program and to promote capacity building and long-range collaboration?
- How does the training curricula reflect high standards for pedagogy, content, and proficiency in English and a second language to ensure that participants are effectively prepared to provide instruction and support to LEP students?
- How will the program assist in systemically reforming policies and practices in the target schools and in the IHE related to the preparation of new teachers, the induction of new bilingual teachers, clinical experiences for new bilingual teachers and other educational personnel, or professional development opportunities for all teachers?
- What special selection criteria will the applicant adopt to ensure that individuals selected to participate in the program hold promise for successfully completing program requirements?
- What special support will be provided to participants by experienced bilingual teachers, higher education

faculty, and school administrators to guide them during their period of induction?

- How will the instructional responsibilities of participants be balanced with appropriate professional development, support and planning time?

- How will clinical experiences for preservice participants be structured to ensure that they are well-supervised, of sufficient duration and in a setting which provides opportunities for participants to experience a variety of effective bilingual education instructional methods and approaches?

- How is the training curriculum based on current research related to effective teaching and learning? What evidence of effectiveness supports the training model?

- What performance indicators will the proposed program use to support the effectiveness of the program related to, for example: improved teaching practices; participants' effectiveness in the instructional setting; improved performance on National or State benchmark tests; reduction in the number of new bilingual teachers leaving the profession; improvement of graduation rates?

- How will the program evaluation incorporate strategies for assessing the progress and performance of participants; communicating meaningful, regular and timely feedback to participants; improving the quality of the training program; documenting and identifying exemplary program features and successful strategies; and reporting on specific data related to the number of participants completing the program and the number of graduates placed in the instructional setting?

In addition, applicants may wish to consider the Department of Education Professional Development Principles in planning a Career Ladder Program

The following are the professional development principles:

- Focuses on teachers as central to student learning, yet includes all other members of the school community;
- Focuses on individual, collegial and organizational improvement;
- Respects and nurtures the intellectual and leadership capacity of teachers, principals, and others in the school community;
- Reflects best available research and practice in teaching, learning, and leadership; enables teachers to develop further expertise in subject content, teaching strategies, uses of technologies,

and other essential elements in teaching to high standards;

- Promotes continuous inquiry and improvement embedded in the daily life of schools;

- Is planned collaboratively by those who will participate in and facilitate that development;

- Requires substantial time and other resources;

- Is driven by a coherent long-term plan;

- Is evaluated ultimately on the basis of its impact on teacher effectiveness and student learning; and uses this assessment to guide subsequent professional development efforts.

What other information may be helpful in applying for a Career Ladder Program?

Applicants are reminded that they must submit a copy of their application to the SEA for review and comment. In addition, applicants must submit a copy of their application to the State Single Point of Contact to satisfy the requirements of Executive Order 12372. The SEA review requirement and the requirements for Executive Order 12372 are two separate requirements.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH (Attachment to ED 424)

I. Instructions to Applicants if Research Activities Involving Human Subjects are Planned

If you marked item 11 on the application "Yes" and designated exemptions from the human subjects regulations, provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under II.B. "Exemptions," below.

If you marked "Yes" to item 11 on the Face Page, and designated no exemptions from the regulations, address the following six points. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Be sure to provide this information on a separate page(s) entitled "Protection of Human Subjects Attachment."

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

- (1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.
- (2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of pub-*

lic behavior when the investigator(s) do not participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

- (3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

- (4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

- (5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

- (6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

OMB Control No. 1801-0004 (Exp. 8/31/2001)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single

narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4651.**

General Education Provisions Act (GEPA) Requirement

Applicants should use this section to address the GEPA provision.

A large, empty rectangular box with a thin black border, occupying the majority of the page below the text. It is intended for applicants to provide their response to the GEPA requirement.
