

22. Allegheny Power Service Corporation, on behalf of Monongahela Power Company; The Potomac Edison Company, and West Penn Power Company (Allegheny Power)

[Docket No. ER00-511-000]

Take notice that on November 5, 1999, Allegheny Power Service Corporation on behalf of Monongahela Power Company, The Potomac Edison Company and West Penn Power Company (Allegheny Power), filed Supplement No. 10-6 to add Utility.com to Allegheny Power's Open Access Transmission Service Tariff. The proposed effective date under the agreement is November 1, 1999.

Copies of the filing have been provided to the Public Utilities Commission of Ohio, the Pennsylvania Public Utility Commission, the Maryland Public Service Commission, the Virginia State Corporation Commission, and the West Virginia Public Service Commission.

Comment date: November 24, 1999, in accordance with Standard Paragraph E at the end of this notice.

23. Tucson Electric Power Company

[Docket No. ER00-513-000]

Take notice that on November 5, 1999, Tucson Electric Power Company tendered for filing one (1) umbrella service agreement (for short-term firm service) and one (1) service agreement (for non-firm service) pursuant to Part II of Tucson's Open Access Transmission Tariff, which was filed in Docket No. OA96-140-000.

Comment date: November 24, 1999, in accordance with Standard Paragraph E at the end of this notice.

24. Select Energy, Inc.

[Docket No. ER00-514-000]

Take notice that on November 5, 1999, Select Energy, Inc. (Select), tendered for filing pursuant to Section 205 of the Federal Power Act and Part 35 of the Commission's Regulations a Standard Offer Service Wholesale Sales Agreement between Select and The Connecticut Light and Power Company (CL&P).

An effective date of January 1, 2000, is proposed.

Copies of this filing have been sent to the Connecticut Department of Public Utility Control.

Comment date: November 24, 1999, in accordance with Standard Paragraph E at the end of this notice.

25. Northeast Utilities Service Company, Select Energy, Inc.

[Docket No. ER00-515-000]

Take notice that on November 5, 1999, Northeast Utilities Service Company (NUSCO) and Select Energy, Inc. (Select), tendered for filing under Section 205 of the Federal Power Act two transition power supply agreements under which The Connecticut Light and Power Company and Western Massachusetts Electric Company may sell electric power to, or buy electric power from, Select. Applicants state that the agreements are designed to bridge potential gaps in power supply availability if certain restructuring events occur at different times.

The Applicants state that copies of this filing have been sent to the Connecticut Department of Public Utility Control and the Massachusetts Department of Telecommunications and Energy.

Comment date: November 24, 1999, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

David P. Boergers,

Secretary,

Agency Information Collection Activities: Submission for OMB Review; Comment Request, NESHAP Subpart M, National Emission Standard for Asbestos

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NESHAP Subpart M, National Emission Standard for Asbestos; OMB Control Number 2060-0101; expires February 29, 2000. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before December 22, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0111.09.

SUPPLEMENTARY INFORMATION:

Title: NESHAP Subpart M National Emission Standard for Asbestos (OMB Control No. 2060-0101; EPA ICR No. 0111.09) expiring February 29, 2000. This is a request for extension of a currently approved collection.

Abstract: The revised National Emission Standards for Hazardous Air Pollutants (NESHAP), for Asbestos were proposed on January 10, 1989 and promulgated on November 20, 1990. The standards apply to the following facilities: demolition and renovation of facilities; the disposal of asbestos waste; asbestos milling, manufacturing and fabricating; the use of asbestos on roadways; asbestos waste conversion facilities; and the use of asbestos insulation and sprayed-on materials. This information is being collected to assure compliance with 40 CFR part 61, subpart M.

Milling, Manufacturing, Fabricating, Waste Disposal and Waste Conversion Facilities

Owners or operators of the affected milling, manufacturing, fabricating, waste disposal, and waste conversion

facilities described must make one-time-only notifications and are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction. Record keeping includes the initial performance test results including information necessary to determine the conditions of the performance test, and performance test measurements and results, including monitoring each potential source of asbestos emissions for visible emissions to the outside air and inspecting air cleaning devices to ensure proper operation. The reporting requirements include the initial notifications listed, the initial performance test results, and quarterly reports of instances when visible emissions are observed. These notifications, reports and records are required, in general, of milling, manufacturing, fabricating, and waste disposal sources subject to the NESHAP Subpart M. Notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated, and if the standard is being met. The quarterly reports are used for problem identification, as a check on source operation and maintenance, and for compliance determinations.

Demolition and Renovation

Owners and operators of demolitions and renovations must notify EPA in advance of the initiation of any asbestos removal work. The notice provides information on the dates of operation, the nature of the removal operation, the quantity of asbestos, and controls to be used. The reviewing authority may then inspect the source to ensure compliance with the standard. The demolition and renovation standard requires that a representative trained in the provisions of the standard be present at the facility. Evidence that the required training has been completed is required. The provisions require that all containers of asbestos waste be labeled including the name of the waste generator and the location of where the waste was generated. Owners or operators of demolitions and renovations are required to prepare and maintain records of each waste shipment as to its destination, the quantity of waste, and the date of shipment, and to furnish a copy of the record to disposal site owners or operators. The regulation also requires that the generators of asbestos waste attempt to reconcile instances in which a signed copy of the waste shipment record is not received from the disposal site and that the generator

notify EPA if delivery to the disposal site cannot be confirmed.

Owners and operators of waste disposal sites are required to document all asbestos waste shipments that are received and send a copy of each record back to the generator. A record of the location and quantity of asbestos in the landfill is required as well as noting the presence and location of asbestos in the landfill property deed. Disposal site owners and operators have to report to EPA any discrepancies between the amount of waste designated on the waste shipment record and the amount actually received, as well as instances of improperly contained waste. An owner or operator of an operation in which asbestos-containing materials are spray-applied must notify EPA in advance of the spraying operation. The notice provides information on the name and address of the owner or operator, location of the spraying operation, and procedures to be followed.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least 2 years following the date of such measurements, and records. All reports are sent to the delegated State or Local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office. Responses to this information collection are mandatory. Section 112 of the Clean Air Act as Amended provides EPA with the authority for NESHAP Standards. 40 CFR part 61, subpart M requires the collection and reporting of the emissions data/ work practice compliance. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 6/4/99 (64 FR 107); no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 2.7 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and

maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of Asbestos Milling, Manufacturing and Fabricating Facilities

Estimated Number of Respondents: 10,647.

Frequency of Response: On occasion, weekly, quarterly and annually.

Estimated Total Annual Hour Burden: 362,159 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0111.09 and OMB Control No. 2060-0101 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Policy, Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460;
and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: November 15, 1999.

Richard T. Westlund,
Acting Director, Regulatory Information Division.
