The United States Air Force (Air Force) is issuing this notice to advise the public that the Air Force intends to prepare an environmental impact statement (EIS) to assess the potential environmental impacts of disposal and reuse at Reese Air Force Base (AFB), Texas.

The EIS will address the potential environmental impact of disposal of the property to public or private entities, as well as the potential environmental impact of all reasonable reuse alternatives.

To provide a forum for public officials and the community to provide information and comments, a scoping meeting will be held in Lubbock, Texas, on May 8, 1996, and the scoping period will extend to June 1996. Notice of the time and location of this meeting will be provided at a later date, and publicized in the community. The purpose of this meeting is to help identify issues that need to be assessed and discussed in the EIS. During this meeting, the Air Force will discuss the proposal to dispose of Reese AFB, describe the process involved in preparing an EIS, and ask for help in identifying alternative uses by the Air Force. In soliciting disposal and reuse alternatives, the Air Force will consider all reasonable alternative offered by any federal, state, or local government agency, and any federally sponsored or private entity or individual. The resulting EIS will be considered in making disposal decisions that will be documented in the Air Force's Final Disposal Plan and Record of Decision.

To ensure sufficient time to adequately consider public comments concerning environmental issues and disposal and reuse alternatives to be included in the EIS, the Air Force recommends that comments and reuse proposals be presented at the upcoming scoping meeting or forwarded to the address listed below at the earliest possible date. The Air Force will, however, accept additional comments at any time during the environmental impact analysis process.
