**Niobrara National Scenic River; Draft
Environmental Impact Statement and
General Management Plan**

AGENCY: National Park Service.

ACTION: Availability of draft
environmental impact statement and
general management plan, for the
Niobrara National Scenic River, located
in Brown, Cherry, Keya Paha, and Rock
counties, Nebraska.

SUMMARY: Pursuant to section 102(2)(c)
of the National Environmental Policy
Act of 1969, the National Park Service
(NPS) announces the availability of the
draft environmental impact statement
(DEIS) and general management plan,
for the Niobrara National Scenic River.
The DEIS responds to Public Law 102-
50, which amended the Wild and Scenic
Rivers Act to add 70 miles of the
Niobrara River to the national wild and
scenic rivers system. The NPS prepared
the DEIS. Cooperating agencies included
Brown, Cherry, Keya Paha, and Rock
counties, Middle Niobrara Natural
Resources District, Nebraska Game and
Parks Commission, Nebraska State
Historical Society, and the U.S. Fish and
Wildlife Service.

Three management action alternatives
and a no action alternative are
described. Three alternative boundaries
are also described. Management
alternative A (no action) would
continue existing trends of management
along the river by different state and
Federal Agencies and private
landowners operating ranches and
recreation services. Alternative B (the
preferred) would establish a non-
Federal council for management, which
would include members from various
county and state agencies, landowners,
and business people. The NPS would
provide funding and technical help by
cooperative agreement. Alternative C
provides for local partnership
management. The NPS would offer
some assistance through cooperative
agreements. Alternative D provides for
management by the NPS and would also
involve cooperative agreements with
local entities for some services.

Boundary alternatives are separate
from the management alternatives.
Boundary alternative 1 is the interim
boundary set by the Wild and Scenic
Rivers Act and averages 0.25 mile from
the ordinary high water mark and
includes 21,346 acres of land.
Alternative 2 was drawn to include
significant natural and scenic resources,
and includes 20,205 acres of land.
Alternative 3 includes important
examples of natural features and
includes 9,842 acres of land. Another
boundary was considered but officially
rejected, which would include no land
above the river bank.

All management action alternatives
and boundary alternatives are expected
to provide a mechanism for long term
resource protection and to accommodate
recreational use of the river without
impacting private property values.

DATES: Comments on the DEIS should
be received no later than May 28, 1996.
Public meetings will be held in various
Nebraska towns and cities during April,
and will be announced in local news
media when schedules are final.

ADDRESSES: Comments on the DEIS
should be submitted to the
Superintendent, Niobrara/Missouri
National Scenic Riverways, P.O. Box
591, O'Neill, Nebraska 68763.

SUPPLEMENTARY INFORMATION: Public
reading copies of the DEIS will be
available for review at the Department
of Interior Natural Resources Library,
1849 C Street, N.W., Washington, D.C.
20240, and at public libraries and
county courthouses in Ainsworth,
Bassett, O'Neill, Springview, and
Valentine, Nebraska.

FOR FURTHER INFORMATION CONTACT:
Superintendent, Warren Hill, Niobrara/

Missouri National Scenic Riverways at
the above address or he can be reached
at 402-336-3970.
