### Notice for Publication; Alaska Native Claims Selection

In accordance with Departmental regulation 43 CFR 2650.7(d), notice is hereby given that a decision to issue conveyance under the provisions of Sec. 14(a) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(a), will be issued to Sitnasuak Native Corporation for approximately 81,279.68 acres. The lands involved are in the vicinity of Nome, Alaska.

Kateel River, Meridian

T. 9 S., R. 32 W.,  
T. 10 S., R. 32 W.,  
T. 11 S., R. 32 W.,  
T. 9 S., R. 33 W.,  
T. 10 S., R. 33 W.,  
T. 9 S., R. 34 W.,  
T. 10 S., R. 34 W.,  
T. 9 S., R. 35 W.,  
T. 10 S., R. 35 W.

A notice of the decision will be published once a week, for four (4) consecutive weeks, in the Nome Nugget. Copies of the decision may be obtained by contacting the Alaska State Office of the Bureau of Land Management, 222 West Seventh Avenue, #13, Anchorage, Alaska 99513-7599 ((907) 271-5960).

Any party claiming a property interest which is adversely affected by the decision, an agency of the Federal government or regional corporation, shall have until May 31, 1996 to file an appeal. However, parties receiving service by certified mail shall have 30 days from the date of receipt to file an appeal. Appeals must be filed in the Bureau of Land Management at the address identified above, where the requirements for filing an appeal may be obtained. Parties who do not file an appeal in accordance with the requirements of 43 CFR Part 4, Subpart E, shall be deemed to have waived their rights.

Chris Sitbon,

*Land Law Examiner, ANCSA Team, Branch of 962 Adjudication.*

### Minerals Management Service

#### Information Collection Solicitation for Comments

**AGENCY:** Minerals Management Service, DOI.

**ACTION:** Notice of Information Collection Solicitation.

**SUMMARY:** Under the Paperwork Reduction Act of 1995, the Minerals Management Service (MMS) is soliciting comments on an information collection for Production Accounting and Auditing System Reports on Solid Minerals.

**DATES:** Written comments should be received on or before July 1, 1996.

**ADDRESSES:** Comments sent via the U.S. Postal Service should be sent to: Minerals Management Service, Royalty Management Program, Rules and Procedures Staff, P.O. Box 25165, MS 3101, Denver, Colorado 80215-0165.

Comments sent via courier or overnight delivery service should be sent to: Minerals Management Service, Royalty Management Program, Rules and Procedures Staff, MS 3101, Building 85, Room A-212, Denver Federal Center, Denver, Colorado 80225-0165.

**FOR FURTHER INFORMATION CONTACT:** Dennis C. Jones, Rules and Procedures Staff, phone (303) 231-3046, FAX (303) 231-3194, e-Mail Dennis[ ]Jones@smtp.mms.gov.

**SUPPLEMENTARY INFORMATION:** In compliance with the requirement of Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 each agency shall provide notice and otherwise consult with members of the public and affected agencies concerning collection of information in order to solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

The Secretary of the Interior is responsible for the collection of royalties from lessees who produce minerals from leased Federal and Indian lands, and the Secretary is authorized to manage lands, to collect royalties due, and to distribute royalties collected. MMS performs the royalty management functions assigned to the Secretary and has implemented the Production Accounting and Auditing System (PAAS) to improve the management of minerals produced from Federal and Indian land.

PAAS is an integrated computer system based on production processing reports submitted by lease operators and is designed to track minerals produced from Federal and Indian lands from the point of production to the point of disposition, or royalty determination, and/or point of sale. PAAS data is compared to data in the MMS Auditing and Financial System (AFS), which provides payment and sales volumes and values as reported by payors. The comparison enables MMS to verify that proper royalties are being received for the minerals produced.

The Secretary is authorized to prescribe proper rules and regulations and to do any and all things necessary to accomplish the purpose of applicable laws. Citations include: 30 U.S.C. 189, (public lands), 30 U.S.C. 359, (acquired lands) and 25 U.S.C. 396d, (Indian lands). Current regulations applicable to this information collection are at 30 CFR 212.200 and 30 CFR 216 et seq. Regulations of the Bureau of Indian Affairs (BIA), 25 CFR 211 et seq., provide by cross-reference that the pertinent provisions of 30 CFR Chapter II, Parts 200-290 apply to Indian leases.

Lessees of Federal and Indian leases agree to provide information of all operations conducted on a lease and the volume and quality of all production from the lease at such times and in such form as the Secretary may prescribe. Rules require lessees to provide accurate, complete, and timely reports for all minerals produced, in the manner and form prescribed by MMS (30 CFR 216.21).

PAAS uses four forms to record solid minerals data. Two forms are necessary to establish a reference data base. Form MMS-4050, Mine Information Form (MIF), is filed as the first step in reporting solid mineral data to PAAS. It is prepared by BLM or MMS when a mine is first approved, or to change previously reported data from each mine that includes Federal or Indian leases. Form MMS-4051-S, Facility and Measurement Information Form (FMIF) identifies the scales and meters that measure production at each mine or storage or secondary processing facility.

Two operations reports provide information on production, sales volumes, and inventories of mines and processing facilities. Form MMS-4059, Solid Minerals Operations Report (SMOR) is submitted by all Federal and Indian lease operators producing solid minerals subject to royalties and has two parts. Part A, Production and Disposition of Raw Materials, is submitted by operators of all producing mines that include Federal or Indian leases within the approved mine plan, and is required only if production is sold directly from the mine. Part B, Mine Sales From a Facility, is submitted only by those mine operators whose production is sold after secondary processing, or from remote storage.

Form MMS-4060, Solid Minerals Facility Report (SMFR), is submitted to MMS by operators of secondary processing or remote storage facilities that handle solid mineral production on which royalties have not been determined and also has two parts. Part A, Process Operations, identifies the operator and the facility, and for each line item, the mine, type of product received, and quantity and quality of input and output of the processing facility. Part B, Inventory, identifies for each product and its source mine the beginning inventory, raw materials received, amount of production, disposition, quantity sold or transferred, the facility or measuring point to which production is transferred, and ending inventory.

The MMS has analyzed PAAS requirements to ensure that the information requested is the minimum necessary and places the least possible burden on industry. There are no special reporting provisions for small organizations. To reduce the reporting burden, MMS provides toll-free telephone assistance, distributes information packages with copies of the PAAS Reporter Handbook providing step-by-step instructions in completing required forms, and conducts training at various sites around the country.

Dated: April 22, 1996.  
Robert E. Brown,  
*Acting Associate Director for Royalty Management.*

#### **Environmental Documents Prepared for Proposed Annual Lease Sales in the Central and Western Gulf of Mexico in the New 5-Year Program (1997-2002)**

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Proposal to prepare a single Environmental Impact Statement (EIS) for all of the proposed annual lease sales in the Central Gulf of Mexico Planning Area (CPA) and another for the Western Gulf of Mexico Planning Area (WPA) in the new 5-Year Program (1997-2002), followed by an Environmental Assessment (EA) prior to each sale.

**SUMMARY:** Since least sale proposals in the CPA and WPA are very similar each year, it is proposed that a single EIS be prepared for all the sales (four or five) on the 5-year schedule in each planning area. Federal regulations allow for several proposals to be analyzed in one EIS (40 CFR 1502.4). The multisale EIS would include an analysis of a single, "typical" sale and a cumulative analysis that would include the effects of holding all four or five sales as well as the cumulative effects of the long-term development of the planning area. The multisale approach will apply only to the CPA and WPA. In subsequent years, an EA will be prepared to determine if a Finding of No Significant Impact (FONSI) should be prepared, or whether a Supplemental EIS (SEIS) is warranted.

**FOR FURTHER INFORMATION:** Gulf of Mexico OCS Region, Minerals Management Service, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394, George Hampton, Telephone (504) 736-2465.

**SUPPLEMENTARY INFORMATION:** In 1983 the planning areas in the Gulf of Mexico were defined as Eastern, Central, and Western, and the boundaries of those areas were established. Since that time a sale has been planned and held annually in both the Central and Western Planning Areas. The National Environmental Policy Act (NEPA) document prepared for each of those sales has been an EIS. When the EIS for Sales 166 and 168 is filed in December 1996, 15 final EIS's will have been produced on annual areawide sales in the CPA and WPA. A Draft EIS on the 5-year program was recently completed and is available for comment. Additionally, a Cumulative Effects

Report, which includes an assessment of the cumulative effects from OCS Program activities that occurred from 1987 through 1991 (MMS 95-0007) was completed. Since the proposed action for each sale is basically the same (offer all available unleased blocks in each planning area) and the level of expected activity does not vary a great deal from year-to-year, the level of potential impacts remain within consistent ranges. Therefore, the EIS's prepared on these sales are very similar.

The EIS will include an analysis of the environmental effects of holding one sale, a sale "typical" of any in the planning area, that may be held in the remainder of the 5-year program.

The assumptions upon which the analysis is based would cover a range of resources and activities that would encompass any of the four follow-up proposed actions. Later sales could then be compared to the initial analysis in an EA or SEIS.

The cumulative analysis, as identified in NEPA 1508.25(a)(2), would be in two parts. One part would be concentrated on the five proposed actions, emphasizing the cumulative aspect of holding the current sale proposal and four more annual sales. The second part would be a full cumulative analysis of all past, present, and reasonably foreseeable future actions.

The MMS is requesting comments and recommendations from interested parties concerning the proposed multisale EIS process.

The MMS will present the multisale approach to all interested parties at a public meeting in New Orleans. The meeting is scheduled for the following date, time, and location: May 22, 1996, MMS, Gulf of Mexico Regional Office, 1201 Elmwood Park Boulevard, Room 115, New Orleans, Louisiana, 1:00 to 3:00 p.m.

Dated: April 22, 1996.  
Chris C. Oynes,
