Peptide Derivatives of Cytochrome b558 and Their Use as Medicaments [as Anti-Inflammatory Agents]

Serial No. 07/527,767 (CIP of 07/331,652)

Licensing Contact: Carol Lavrich, 301/496-7735 ext 287

A new anti-inflammatory agent based on two c-terminal amino acid sequences of cytochrome b558 has been shown to inhibit the production of toxic oxygen products (superoxide, peroxide) by human phagocytic cells. Because of its specificity for phagocytic cells, it is expected that these peptide derivatives would not have the side effects of other anti-inflammatory agents in general use. ## **DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

### **Office of the Assistant Secretary for Community Planning and Development**

[Docket No. FR-3778-N-72]

### **Federal Property Suitable as Facilities to Assist the Homeless**

**AGENCY:** Office of the Assistant Secretary for Community Planning and Development, HUD.

**ACTION:** Notice.

**SUMMARY:** This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

#### **FOR FURTHER INFORMATION CONTACT:**

Mark Johnston, room 7256, Department of Housing and Urban Development, 451 Seventh Street SW, Washington, DC 20410; telephone (202) 708-1226; TDD number for the hearing- and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

**SUPPLEMENTARY INFORMATION:** In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Brian Rooney, Division of Property Management, Program Support Center, HHS, room 5B-41, 5600 Fishers Lane, Rockville, MD 20857; (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Mark Johnson at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the Federal Register, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (*i.e.*, acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: Veterans Affairs: Steve Koenig, Management Analyst, Department of Veterans Affairs, 811 Vermont Avenue, NW, Room 414, Lafayette Bldg., Washington, DC 20420; (202) 565-5424; (Those are not toll-free numbers).

### Endangered and Threatened Species Permit Application

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of receipt of application.

The following applicant has applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*).

PRT-810834

**Applicant:** Dr. Francesca Cuthbert, University of Minnesota, St. Paul, Minnesota.

The applicant requests a permit to take (capture and release, handle, temporarily hold, salvage abandoned eggs and chicks) Piping Plover (*Charadrius melodus*) in Michigan. The permit is sought for banding of adults and juveniles, habitat use study, salvage of abandoned eggs and chicks for captive propagation, rearing of chicks, and release into the wild. Proposed activities will aid in recovery of the species by providing demographic, dispersal, and site fidelity data that will assist in recovery efforts for this population. Salvaging of eggs and chicks may increase recruitment to the Great Lakes nesting population.
