

40 CFR part 2. If no claim of confidentiality accompanies the submission when it is received by EPA, it may be made available to the public without further notice to the person making comments.

B. Public Participation

Any person desiring to present testimony regarding this proposed rule at the public hearing (see **DATES**) should notify the contact person listed above of such intent as soon as possible. A sign-up sheet will be available at the registration table the morning of the hearing for scheduling testimony for those who have not notified the contact person. This testimony will be scheduled on a first come, first serve basis to follow the previously scheduled testimony.

EPA suggests that approximately 50 copies of the statement or material to be presented be brought to the hearing for distribution to the audience. In addition, EPA would find it helpful to receive an advance copy of any statement or material to be presented at the hearing in order to give EPA staff adequate time to review such material before the hearing. Such advance copies should be submitted to the contact person listed previously.

The official records of the hearing will be kept open for 30 days following the hearing to allow submission of rebuttal and supplementary testimony. All such submittals should be directed to the Air Docket, Docket No. A-96-30 (see **ADDRESSES**).

Mr. Charles Freed, Division Director of the Fuels and Energy Division, Office of Mobile Sources, is hereby designated Presiding Officer of the hearing. The hearing will be conducted informally and technical rules of evidence will not apply. Because a public hearing is designed to give interested parties an opportunity to participate in the proceeding, there are no adversary parties as such. Statements by participants will not be subject to cross examination by other participants. A written transcript of the hearing will be placed in the above docket for review. Anyone desiring to purchase a copy of the transcript should make individual arrangements with the court reporter recording the proceeding. The Presiding Officer is authorized to strike from the record statements which he deems irrelevant or repetitious and to impose reasonable limits on the duration of the statement of any witness. EPA asks that persons who testify attempt to limit their testimony to ten minutes, if possible. The Administrator will base her decision with regard to the modification of the covered areas of the

reformulated gasoline rule on the record of the public hearing and on any other relevant written submissions and other pertinent information. This information will be available for public inspection at the EPA Air Docket, Docket No. A-96-30 (see **ADDRESSES**).

Dated: April 8, 1997.
