

company acknowledged that it has not identified all design specification differences between these parts and the corresponding parts found on U.S.-certified vehicles. GM asserted, however, that the analysis it has performed reveals that interior trim, seat assemblies, glazing materials, tires, engines, manual transmissions, rear axles, front hub and knuckle assemblies, fuel lines, and fuel caps all have design specifications that differ in a number of areas from the specifications that apply to parts released for U.S. vehicles. GM also noted that even non-Mexican sourced parts used in Mexican Suburbans, such as automatic transmissions and fuel tank assemblies, have different design specifications from those found on U.S. certified vehicles.

NHTSA accorded LPC an opportunity to respond to GM's comments. In its response, LPC agreed with GM's assertion that components released for non-U.S. marketed Suburbans may not meet FMVSS requirements. LPC contended, however, that the specific vehicles it seeks to import were manufactured for the U.S. market with U.S.-model components, but that they lack the required certification label.

NHTSA accorded GM an opportunity to respond to LPC's comments. In its response, GM stated that it examined the vehicle identification numbers assigned to the vehicles that LPC wishes to import, and has concluded on the basis of that examination that these vehicles were not originally manufactured for sale in the United States.

NHTSA has fully considered the comments from both GM and LPC. In light of GM's claim that 1995-1996 Suburbans built for the Mexican market have 750 parts that differ from those found on U.S. certified versions of these vehicles, and that vehicles with these parts have not been tested for compliance with the FMVSS, LPC had the burden of producing information to demonstrate such compliance. Far from producing such information, LPC acknowledged agreement with GM's position. In light of this circumstance, NHTSA has concluded that the petition does not clearly demonstrate that non-U.S. certified 1995-1996 GMC and Chevrolet Suburban MPVs are eligible for importation. The petition must therefore be denied under 49 CFR 593.7(e).

In accordance with 49 U.S.C. 30141(b)(1), NHTSA will not consider a new import eligibility petition covering this vehicle until at least three months from the date of this notice.

Authority: 49 U.S.C. 30141 (a)(1)(A) and (b)(1); 49 CFR 593.7; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: April 10, 1997.

Marilynne Jacobs,

Director, Office of Vehicle Safety Compliance.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 33364]

The Burlington Northern and Santa Fe Railway Company—Acquisition and Operation Exemption—Lac Qui Parle Regional Railroad Authority

The Burlington Northern and Santa Fe Railway Company (BNSF), a Class I rail carrier, has filed a verified notice of exemption under 49 CFR 1150.31 to acquire and operate approximately 35.43 miles of line owned by the Lac Qui Parle Regional Railroad Authority (Lac Qui) ¹ extending from milepost 0.00, at Hanley Falls, MN, to milepost 35.43, at Madison, MN.²

The transaction is expected to be consummated on the April 15, 1997 effective date of the exemption.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to reopen the proceeding to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to reopen will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33364, must be filed with the Office of the Secretary, Surface Transportation Board, Case Control Unit, 1925 K Street NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Michael E. Roper, Esq., The Burlington Northern and Santa Fe Railway Company, 3800 Continental Plaza, 777 Main Street, Fort Worth, TX 76102-5384.

Decided: April 8, 1997.

¹ Lac Qui Parle is a political subdivision of the State of Minnesota.

² BNSF currently provides common carrier rail service over 36.2 miles of Lac Qui's rail line pursuant to *Burlington Northern Railroad Company, Modified Rail Certificate*, Finance Docket No. 30323 (ICC served Nov. 7, 1983). Lac Qui will retain ownership of the .77 miles of track not purchased by BNSF, and BNSF will continue to operate over the .77-miles of line under various industrial track agreements. Pursuant to 49 CFR 1150.24, BNSF will provide 60 days' notice of its intent to terminate the service under the Modified Rail Certificate.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,
Secretary.
