#### Realty Action; Notice of Proposed Amendments to Lease Agreement F-79402, Public Service Facilities on the James Dalton Highway, Alaska

**SUMMARY:** Toby M. Williams, DBA Yukon Ventures Alaska, Inc., has requested an amendment to the existing lease. A new structure would be erected between the two existing motel units, and consist of 6 ATCO units approximately 56'x9'6". One unit will be used for bathrooms, furnace and laundry facilities, one unit will be used to house the furnace room and three bedrooms, and the remaining four units will accommodate four bedrooms each. This would provide for 19 additional bedrooms, resulting in an increase in lodging capacity from 100 people to 138 people.

Mr. Williams has also requested an amendment to the existing lease, to accommodate seasonal operation of the facilities in lieu of the current requirement for providing minimal emergency services year round. The proposed months of operation would be from April 1 through October 31 of each calendar year.

**ADDRESSES:** Submit written comments on this notice to the District Manager, Bureau of Land Management, Northern District Office, 1150 University Avenue, Fairbanks, Alaska 99709-3899.

**FOR FURTHER INFORMATION CONTACT:** Linda K. Butts, Realty Specialist, at above address or at telephone (907) 474-2324 or toll free at 800-437-7021.

**SUPPLEMENTARY INFORMATION:** The facility is located within protracted Section 7, Township 12 North, Range 10 West, Fairbanks, Meridian, and contains approximately 25.9 acres.

The BLM requests comments on the public interest and safety impacts of changing the existing lease. Interested parties may submit written comments to the District Manager at the above address until July 21, 1997.

Any adverse comments will be reviewed by the BLM-Alaska State Director, who may vacate, sustain, or modify the realty action and issue a final determination. In the absence of any objection, the final determination of

the Department of the Interior will be made in accordance with this Notice.

Dated: May 30, 1997.

### National Park Service

#### Notice of Intent to Prepare an Environmental Impact Statement for a General Management Plan for the Big South Fork National River and Recreation Area, Kentucky and Tennessee

**SUMMARY:** The Park is operating without the benefit of a comprehensive framework plan prepared according to National Park Service policies. The Corps of Engineers prepared a Master Plan for the park which was primarily development oriented and in many respects is out of date. Key management concerns include the identification of general strategies for the protection of water quality and quantity, management of natural and cultural resources in the gorge and adjacent area, identification of and provision for desirable visitor experiences, enhancement of relationships with others in the area, and the expectation of little or no increases in budget and staff.

The plan will identify a resource-based framework for the park and describe desired future conditions, alternatives, and general strategies, consistent with the park's purpose, significance, and mandates.

The alternatives and general strategies required to achieve desired future conditions will then be assessed for their environmental effects.

**DATES:** A series of public meetings will be held in surrounding communities through June 1997. Please consult with local newspapers for the times and locations or call the park for this information.

**FOR FURTHER INFORMATION CONTACT:** Superintendent, Big South Fork National River and Recreation Area, 4564 Leatherwood Road, Oneida, Tennessee 37841, Telephone: (423) 569-9778.

**SUPPLEMENTARY INFORMATION:** The National Park Service is beginning this planning process and invites your comments. You may provide your comments in person at the public meetings or by mail to the Superintendent at the above address. Comments by mail should reach the

Superintendent by July 15, 1997. Issues for evaluation may be suggested as well as alternatives for addressing the issues. A draft of the planning and environmental impact statement is expected to be available for public review by the summer of 1998. Your input is appreciated.

Dated: May 22, 1997.

### Bureau of Reclamation

#### **Proposed Water Supply Exchange Contract, Yakima Project, Washington**

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, the Bureau of Reclamation (Reclamation) proposes to prepare an environmental impact statement (EIS) on a proposed water exchange contract with Trendwest Resorts, Inc. (Trendwest) in Kittitas County, Washington. The purpose of the water exchange contract is to provide a water supply for a Master Planned Resort, proposed for development by Trendwest on property owned by JELD-WEN, Inc. near Roslyn, Washington. Trendwest intends to purchase 3,500 acre-feet of privately owned water rights in tributaries to the Yakima River which it proposes to exchange for storage water from Reclamation's Yakima Project. The exchange would also enable Reclamation to augment instream flows for anadromous fish in streams tributary to the Yakima River.

**FOR FURTHER INFORMATION CONTACT:** David Kaumheimer, Environmental Programs Manager, or Candace McKinley, Environmental Protection Specialist, at Reclamation's Upper Columbia Area Office, P.O. Box 1749, Yakima, Washington 98907-1749; telephone: (509) 575-5848.

**SUPPLEMENTARY INFORMATION:** Trendwest has submitted an application to Kittitas County (County) to develop a Master Planned Resort on a 7,420-acre site near Roslyn. The County has made a determination of significance under the Washington State Environmental Policy Act (SEPA) and has announced its intention to prepare an EIS under SEPA. Kittitas County has invited Reclamation, Washington Department of Ecology, and the Yakima Indian Nation to be cooperating agencies in that effort. The County's SEPA document will address impacts associated with development of the proposed resort, including impacts associated with water supply alternatives including the proposed water exchange with Reclamation.

Reclamation will not initiate work on its NEPA document until the County has substantially completed its SEPA document. The selection and analysis of water supply alternatives in the SEPA EIS will help Reclamation determine which portions of the overall resort

development should be considered connected actions for the NEPA analysis and whether an EIS or an environmental assessment would be the appropriate NEPA documentation. In the interim, Reclamation assumes that an EIS will be necessary. Reclamation may adopt, with or without supplementary information, the County's SEPA EIS as its NEPA document or may prepare a separate document, incorporating portions of the SEPA EIS by reference, as applicable.

To date Trendwest has acquired water rights to approximately 1,448 acre-feet of water in the Teanaway River and 360 acre-feet of water in Big Creek near Easton, Washington. Additional water purchases would be within the upper portions of the Yakima basin.

#### **Public Involvement**

Reclamation plans to conduct public scoping meetings to identify water supply alternatives and impacts. These meetings will be held in mid-June of 1997 at locations in Kittitas and Yakima Counties, Washington. The dates, times, and locations of public scoping meetings will be noted in newspapers of general circulation in both Kittitas and Yakima Counties. Reclamation will summarize comments received during the scoping meetings into a scoping document which will be available to the public. The public is also invited to comment on the process Reclamation plans to use to meet its responsibilities under NEPA. Comments may be submitted to the address in the **FOR FURTHER INFORMATION CONTACT** section.

Dated: May 21, 1997.
