AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of amended final results of antidumping duty administrative review.

EFFECTIVE DATE: August 20, 1997.

FOR FURTHER INFORMATION CONTACT: Todd Peterson or Thomas Futtner, AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., N.W., Washington, D.C. 20230; telephone (202) 482-4106, or 482-3814, respectively.

Applicable Statute and Regulations

The Department is conducting this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act). Unless otherwise indicated, all citations to the statute and to the Department's regulations are in reference to the provisions as they existed on December 31, 1994.

Scope of the Review

The merchandise covered by this review is fresh and chilled Atlantic salmon (salmon). It encompasses the species of Atlantic salmon (*Salmo salar*)

marketed as specified herein; the subject merchandise excludes all other species of salmon: Danube salmon; Chinook (also called "king" or "quinnat"); Coho ("silver"); Sockeye ("redfish" or "blueback"); Humpback ("pink"); and Chum ("dog"). Atlantic salmon is whole or nearly whole fish, typically (but not necessarily) marketed gutted, bled, and cleaned, with the head on. The subject merchandise is typically packed in fresh water ice (chilled). Excluded from the subject merchandise are fillets, steaks, and other cuts of Atlantic salmon. Also excluded are frozen, canned, smoked or otherwise processed Atlantic salmon. Fresh and chilled Atlantic salmon is currently provided for under Harmonized Tariff Schedule (HTS) subheading 0302.12.00.02.09. The HTS item number is provided for convenience and Customs purposes. The written description remains dispositive.

Amendment of Final Results

On December 13, 1996, the Department of Commerce (the Department) published the final results of its administrative review of the antidumping duty order on fresh and chilled Atlantic salmon from Norway (61 FR 65522). The review covered 24 exporters, and the period April 1, 1993, through March 31, 1994.

On December 12, 1996, petitioners, The Coalition for Fair Atlantic Salmon Trade, filed allegations of clerical errors with regard to the final results with respect to two respondents, Skaarfish A/S (Skaarfish) and Norwegian Salmon A/S (Norwegian Salmon). We also received allegations from both respondents on December 18, 1996, and December 30, 1996. Petitioners submitted rebuttal briefs on January 6, 1997.

Petitioners contends that the Department made a ministerial error in the final results by not adding amounts for indirect selling expenses and interest expenses to the revised cost of cultivation for both Norwegian Salmon and Skaarfish. Respondents did not comment on petitioner's allegation. After a review of petitioner's allegation, we agree with petitioners and have corrected these errors for the amended final results.

Norwegian Salmon maintains that the Department made a ministerial error by incorrectly deducting duty and brokerage applicable to French sales from U.S. sales, rather than deducting these expenses from French sales. In addition, respondent maintains that the Department double-counted U.S. credit expense. Petitioners did not comment on respondents' allegations. After a

review of respondent's allegations, we agree with respondent and have corrected these errors for the amended final results.

Norwegian Salmon also maintains that the Department erroneously double-counted certain expenses associated with damages resulting from underwater explosions affecting Norwegian Salmon's Farm C. Respondent maintains that the indemnity that Farm C received covered all of Farm C's expenses associated with the explosion and that the Department erred by subtracting the amount Farm C claimed as a loss in its financial statement. Petitioner disagrees with respondent. Petitioner states that the Department should reject the allegation because it concerns a methodological determination rather than a ministerial error as described in section 353.28(d) of the Department's regulations. Moreover, petitioner states that the Department's cost of production calculations correctly reflect the actual amounts recorded in Farm C's income statement and accounting ledgers for the loss and indemnity associated with the fish killed by the underwater detonations.

We disagree with respondent that this is a ministerial error. Since 751(f) of the Act defines the term "ministerial error" as errors in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the Secretary considers ministerial. The error alleged by respondent does not fall within this definition, and therefore, we determine that it is not a ministerial error.

Amended Final Results of Review

As a result of comments received and programming errors corrected, we have revised our final results and determine that the following margins exist for the period April 1, 1993, through March 31, 1994:
