**FOR FURTHER INFORMATION CONTACT:** Phyllis H. Cook, Service Information Collection Clearance Officer at 703/358-1943; 703/358-2269 (fax).

**SUPPLEMENTARY INFORMATION:** The Service has submitted the following information collection requirements to OMB for review and extension approval under the Paperwork Reduction Act of 1995, Pub. L. 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic mechanical, or other technological collection techniques or other forms of information technology.

The information collection requirements in this submission implement the regulatory requirements of the Endangered Species Act (16 U.S.C. 1539), the Migratory Bird Treaty Act (15 U.S.C. 704), the Lacey Act (18 U.S.C. 42-44), the Bald Eagle Protection Act (16 U.S.C. 668), the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), (27 UST 108), and the Marine Mammal Protection Act (16 U.S.C. 1361-1407), and the Wild Bird Conservation Act (16 U.S.C. 4901-4916), and are contained in Service regulations in Chapter I, Subchapter B of Title 50 of the Code of Federal Regulations (CFR). Common permit application and record keeping requirements have been consolidated in 50 CFR 13, and unique requirements of the various statutes in separate parts as identified below.

The Service has redesigned the standard license/permit application form number 3-200 to assist persons in applying for Service permits issued under Subchapter B. Under the present clearance, all permit requirements were contained in one submission and they were assigned OMB Approval 1018-0022, the Federal Fish and Wildlife License/Permit Application and Related Reports. In an attempt to make the application and the comment process more "user friendly," similar types of permits have been grouped together and numbered. The application to apply for Service permits issued under Subchapter B of Title 50 of the Code of Federal Regulations (CFR), will still require completion of the 3-200 form, which has been redesigned and renumbered and is now Service form 3-200-1. In addition to the permit application, attachments are often necessary to provide additional information required for specific types of permits, and have been assigned numbers, e.g., 3-200-2.

The information to be supplied on the application and the attachments will be used by the Service to review permit applications and allow the Service to

make decisions, according to criteria established in various Federal wildlife conservation statutes and regulations, on the issuance, suspension, revocation or denial of permits. The Service has reviewed all permit requirements in this submission to ensure that the number of respondents was as accurate as possible and the burden imposed on the public is the lowest possible. As a result, some estimates have been revised and are marked with an asterisk. The obligation to respond is, "required to obtain a benefit." An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number. The following requirements are in this submission:

**31. Title:** Approval of Scientifically-based Sustainable Use Management Plans.

*Service form number:* 3-200-50.

*OMB approval number:* 1018-0084.

*Description and use:* The WBCA prohibits the importation of exotic birds that are listed pursuant to the CITES,

unless these importations qualify for one of the permitted exemptions under the WBCA or, the species to be imported are on an approved list pursuant to the WBCA. The information collection requirements necessary for the public to apply for importations of exotic birds under the permitted exemptions of the WBCA are contained in the current approval. Since the issuance of the current approval, the Fish and Wildlife Service has issued additional regulations, required under the statute, that establish the criteria for the development an approved list of wild-caught exotic birds for which importation is not prohibited by the WBCA.

The approved list of wild-caught exotic bird species will be developed based on information received by the Service from countries that are instituting scientifically based sustainable use management plans for certain exotic bird species within their borders in accordance with the requirements contained in 50 CFR 1532. Only foreign governments can apply for this exemption. The data collected will establish whether or not the Service can include a given species of exotic birds from a particular country in the approved list of non-captive-bred exotic bird species.

*Number of respondents:* 630.

*Estimated completion time:* 2 hours.

*Total annual burden:* 1,300 (Includes 1,260 for all respondents plus 40 hours for the annual report requirements for foreign breeding facility applicants only, as further described below).

**32. Title:** Approval of Foreign Breeding Facilities.

*Service form number:* 3-200-51.

*OMB approval Number:* 1018-0084.

*Description and use:* To evaluate whether to allow importation of exotic birds that are otherwise prohibited by the WBCA, and addresses specific requirements in 50 CFR 15.11, 15.12, 15.21 and 15.41. The information collection requirements necessary for the public to apply for importations of exotic birds under the permitted exemptions of the WBCA are covered under the current OMB approval (1018-0084). However, the Service anticipates the issuance of additional regulations, required under the statute, to establish the criteria for the development of an approved list of foreign breeding facilities from which the importation of certain exotic birds species is not prohibited by the WBCA.

Upon publication in the **Federal Register** of the requirements contained in 50 CFR 15.41 and 15.42, the approved list of foreign breeding

facilities for certain exotic bird species will be developed based on information received by the Service from foreign breeding facilities that are breeding certain exotic bird species in accordance with the requirements contained in 50 CFR 15.41 and 15.42. This collection of information will establish whether or not the Service can include certain exotic bird species from a particular foreign breeding facility in the approved list of such facilities for certain exotic bird species.

#### Information Collections Submitted to the Office of Management and Budget (OMB) for Reinstatement Approval

**ACTION:** Notice.

**SUMMARY:** The collection of information listed below is submitted to the OMB for reinstatement under the provisions of the Paperwork Reduction Act of 1995. Copies of specific information collection requirements, related forms and explanatory material may be obtained by contacting the Service Information Collection Clearance officer at the address and/or phone number listed below.

**DATES:** Comments must be submitted on or before November 10, 1997.

**ADDRESSES:** Comments and suggestions on specific requirements should be sent directly to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for the Interior Department (1018-0022), Washington, D.C. 20503, and a copy to the Service Information Collection Clearance Officer, US Fish and Wildlife Service, MS 224-ARLSQ; 1849 C Street, NW., Washington, D.C. 20240.

**FOR FURTHER INFORMATION CONTACT:** Phyllis H. Cook, Service Information Collection Clearance Officer, 703/358-1943; 703/358-2269 (fax).

**SUPPLEMENTARY INFORMATION:** The Service submitted the following information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1995, (44 U.S.C. Chapter 35). Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of a burden, including whether the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology.

The information collection requirements in this submission implement the following regulatory requirements: the Lacey Act (18 U.S.C. 42) Lacey Act Amendments of 1981 (16 U.S.C. 3371-3378), Migratory Bird Treaty Act (16 U.S.C. 703-712) Bald and Golden Eagle Protection Act (16 U.S.C. 668-668d), the Endangered Species Act of 1973 (16 U.S.C. 1531-1543), the Tariff Classification Act of 1962 (19 U.S.C. 1202), Fish and Wildlife Act of 1972 (16 U.S.C. 742a-742j-1), and the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1384, 1401-1407).

Previously, all permit requirements were contained in one submission and they were assigned OMB Approval Number 1018-0022, the Federal Fish and Wildlife License/Permit Application and Related Reports, Service form number 3-200. In an attempt to make the comment and application process more "user friendly," the Service has redesigned the standard license/permit form 3-200, and similar types of permits have been grouped together and numbered. The application to apply for Service permits issued under subchapter B of Title 50 of the Code of Federal Regulations (CFR), will still require completion of the standard 3-200 form. In addition to the permit application, attachments are often necessary to provide additional information required for each specific type of permit and have been assigned numbers, e.g., 3-200-2.

The information on the application form will be used by the Service to review permit applications and allow the Service to make decisions, according to criteria established in various Federal wildlife conservation statutes and regulations, on the issuance, suspension, revocation or denial of permits. The frequency of response for the following types of permit applications/licenses is on occasion, and all have been currently assigned OMB Approval Number 1018-0022, unless otherwise noted.

A notice was published in the **Federal Register** on June 3, 1997 (62 FR 30333) soliciting public comment on the information collection requirements prior to submission to OMB. One comment was received and that commenter recommended that the hourly burden estimated contained in the **Federal Register** notice cited above was too low, considering the time required for applicants to respond to requests for additional information from the Service. The Service has considered this comment and agrees with the commenter's assessment. The Service
