### Warren Grant Magnuson Clinical Center; Amended Notice of Meeting

Notice is hereby given of a change in the meeting of the Board of Governors of the Warren Grant Magnuson Clinical Center and its Executive Committee, February 9-10, 1997, which was published in the Federal Register on January 21, 1997 (62 FR 3051).

The Executive Committee will meet on February 9 at the Bethesda Hyatt, One Metro Center, Bethesda, Maryland, but will begin at 7:30 p.m. instead of the previously stated 6:00 p.m. The Board meeting remains at the same time and place, 1:00 p.m., Medical Board Room, Building 10, National Institutes of Health, Bethesda, Maryland.

As previously advertised, these meetings will be open to the public. However, in accordance with the provisions set forth in sec. 552b(c)9(B) of Title 5, U.S.C. and sec. 10(d) of Pub. L. 92-463, both meetings may close to the public for discussion of patient-related issues, the premature disclosure of which would frustrate implementation of proposed agency actions.

#### Application Notice Describing the Areas of Interest and Establishing the Closing Date for Receipt of Applications Under the National Earthquake Hazards Reduction Program (NEHRP) for Fiscal Year (FY) 1998

**AGENCY:** Department of the Interior, U.S. Geological Survey.

**ACTION:** Notice.

**SUMMARY:** Applications are invited for research projects under the NEHRP.

The purpose of this program is to support research in earthquake hazards prediction; to provide earth-science data and information essential to determine seismic hazards present in the United States; and information essential to mitigate earthquake damage.

Applications may be submitted by educational institutions, private firms, private foundations, individuals, and agencies of state and local governments.

The NEHRP supports research related to the following general areas of interest:

- I. Evaluating National and Regional Hazard and Risk.* National and regional hazard and risk maps are critical to effective risk reduction strategies.

- II. Evaluating Urban Hazard and Risk.* The strong ground shaking and resulting catastrophic losses in the 1994 Northridge earthquake reinforced the need for the U.S. Geological Survey to concentrate its efforts where the risks are highest, that is, in the nation's urban areas.

- III. Understanding Earthquake Processes.* The effectiveness of risk-mitigation strategies and disaster response are limited by our meager understanding of the tectonic processes that cause earthquakes and generate the strong shaking and ground failure that devastates the built environment.

- IV. Providing Real-time Hazard Assessment.* Effective earthquake hazard evaluation and response to damaging events depend on timely, accurate information. Short, intermediate, and long-term earthquake forecasts in regions of high earthquake potential can all lead to mitigation activities that reduce the losses in subsequent earthquakes.

- V. Providing Geologic Hazards Information Services.* Computer

technology has evolved rapidly in recent years to the point that new powerful tools are accessible both to the providers and the users of geologic hazards information.

**ADDRESSES:** The program announcement is expected to be available on or about February 7, 1997. You may obtain a copy of Announcement No. 00042 from the USGS Contracts and Grants Information Site at <http://www.usgs.gov/contracts/> or the External Research Program Internet Site at <http://erp-web.er.usgs.gov> or by writing Brian Heath, U.S. Geological Survey, Office of Acquisition and Federal Assistance—Mail Stop 205A, 12201 Sunrise Valley Drive, Reston, Virginia 20192, or by fax (703-648-7901).

**DATES:** The closing date for receipt of applicants will be on or about March 28, 1997. The actual closing date will be specified in Announcement No. 00042.

**FOR FURTHER INFORMATION CONTACT:** John Sims, Earthquake Hazards Reduction Program—U.S. Geological Survey, Mail Stop 905, 12201 Sunrise Valley Drive, Reston Virginia 20192. Telephone: (703) 648-6722.

**SUPPLEMENTARY INFORMATION:** Authority for this program is contained in the Earthquake Hazards Reduction Act of 1977, Public Law 95-124 (42 U.S.C. 7701, et. seq.). The Office of Management and Budget Catalog of Federal Domestic Assistance number is 15.807.

### California: Temporary Closure of Senator Wash Reservoir to All Types of Boating, Imperial County, California

**AGENCY:** Bureau of the Land Management, Interior.

**ACTION:** Notice of Temporary Closure of Senator Wash Reservoir to all types of boating: April 25, 1997, through April 27, 1997, and June 13, 1997, through June 15, 1997.

**SUMMARY:** Notice is hereby given that all types of boating are temporarily prohibited on the water surface of Senator Wash Reservoir. The closure area is within sections 31 and 32, T. 14 S., R. 24 E. and sections 5 and 6, T. 15 S., R. 24 E. San Bernardino Meridian, California. The area affected by the

closure contains 353 acres more or less at the high water mark of Senator Wash Reservoir.

**SUPPLEMENTARY INFORMATION:** The temporary closure of Senator Wash Reservoir to all non-event watercraft is being implemented for health and safety concerns during a water ski tournament sponsored by International Novice Tournaments (INT) to be held April 25 through April 27, 1997, and June 13 through June 15, 1997. The surface area of the water is not expected to allow dispersal of waves created by traditional boating use during the water ski tournament. Wave action during this type of event greatly increases the potential for serious accident or injury to participants. This closure shall apply to all persons and watercraft except those permitted by a Bureau of Land Management Officer and shall remain in effect until 6:00 p.m. on the event completion dates. Authority for this action is contained in 43 CFR 8364.1. Violation of this regulation is punishable by a fine not to exceed \$100,000 and/or imprisonment not to exceed 12 months. A map of the boating access closure area is available at the Yuma Field Office, 2555 Gila Ridge Road, Yuma, Arizona 85365.

**EFFECTIVE DATES:** April 25, 1997, through April 27, 1997, and June 13, 1997, through June 15, 1997.
