Office of the Secretary

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) Demonstration Project in Support of Operation Joint Endeavor

AGENCY: Office of the Secretary, DoD.

ACTION: Notice of a CHAMPUS demonstration project to be continued in support of Operation Joint Endeavor.

SUMMARY: On February 9, 1996, 61 FR 4963, DoD published a Notice of a CHAMPUS demonstration project to be implemented in support of members of the Select Reserve called to active duty under Executive Order 12982 in support of Operation Joint Endeavor. This notice extends the demonstration for the duration of operations under Executive Order 12982.

We believe that the elimination of normally imposed CHAMPUS deductibles for this special group of beneficiaries has eased the potential financial hardship caused by unexpected increases in out-of-pocket health care costs, avoided disruption of continuity and access to care, and minimized beneficiary dissatisfaction in transition from reserve to active status. In light of continued operations, it is our intent to continue the demonstration and accomplish a program evaluation following termination of the Executive Order 12982.

EFFECTIVE DATE: December 8, 1996.

POINT OF CONTACT: Major Kathleen Larkin, Senior Health Policy Analyst, OADS(HA)(HSF Policy), (703) 697-8975.

Dated: February 11, 1997.

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS); Specialized Treatment Services (STS) Program

AGENCY: Office of the Secretary, DoD.

ACTION: Notice.

SUMMARY: This notice is to advise interested parties that Wilford Hall Medical Center (WHMC) has been designated the national Specialized Treatment Service facility for allogeneic bone marrow transplantation. All DoD beneficiaries who reside in the 48 contiguous United States and require allogeneic bone marrow transplantation,

Diagnosis Related Group 481, ICD 9 Code 41.03, must be evaluated by WHMC before receiving an allogeneic bone marrow transplant under direct military care of CHAMPUS cost sharing, except for those beneficiaries participating in DoD's demonstration project involving Phase II or Phase III clinical trials sponsored by the National Cancer Institute, as described in Federal Register Notice 61 FR 1899, January 24, 1996. Evaluation in person is preferred. Travel and lodging costs for the patient and, if medically indicated, one nonmedical attendant, will be reimbursed for the evaluation. It is possible to conduct the evaluation telephonically if the patient is unable to travel to WHMC. If the allogeneic bone marrow transplant cannot be performed at WHMC, WHMC will provide a medical necessity review in order to support its issuance of a Nonavailability Statement.

EFFECTIVE DATE: March 15, 1997.

FOR FURTHER INFORMATION CONTACT: Major Lewis, Bone Marrow Transplantation Service, WHMC, at (210) 670-7391, or Captain Orcutt, OSD (Health Affairs), at (703) 695-6800.

SUPPLEMENTARY INFORMATION: In FR DOC 93-27050, appearing in the Federal Register on November 5, 1993 (Vol. 58, 58955-58964), the final rule on the STS Program was published. Included in the final rule was a provision that notices of all military and civilian STS facilities be published in the Federal Register annually. Department of the Army

Supplemental Environmental Assessment and Finding of No Significant Impact for the Realignment of Depot Maintenance Workload (Except Bradley Fighting Vehicle Series and Multiple Launch Rocket Systems) From Red River Army Depot, Texarkana, Texas; the Associated Combat Vehicle Support Mission From Defense Distribution Depot Red River, Texarkana, TX; and the Relocation of the AGT 1500 Engine Recuperator Manufacturing Process From Stratford Army Engine Plant, Stratford, CT, to Anniston Army Depot, Anniston, AL

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: In accordance with Public Law 101-510 (as amended), the Defense Base Closure and Realignment Act of 1990, the Defense Base Closure and Realignment Commission recommended the realignment of Red River Army Depot (RRAD) and the closure of the Stratford Army Engine Plant (SAEP).

The RRAD realignment recommendation included the movement of all maintenance missions, except for that related to the Bradley Fighting Vehicle Series (BFVS), to other depot maintenance activities, including the private sector. The Secretary of the Army made the decision that all maintenance missions, except BFVS and Multiple Launch Rocket Systems (MLRS), would be relocated to Anniston Army Depot (ANAD), Anniston, AL. The Army also proposed the relocation of the associated non-BFVS/MLRS maintenance mission support from Defense Distribution Depot Red River, Texas (DDRT), to Defense Distribution Depot Anniston, Alabama (DDAA).

The relocation of the AGT 1500 engine recuperator manufacturing process from SAEP to ANAD was not directed by the Commission, but a decision by the Department of the Army to retain the capability to rebuild and repair tank engines to meet projected operation and mobilization requirements.

This Environmental Assessment (EA) supplements one completed for Anniston in June 1996 pursuant to a Commission directed maintenance mission transfer from Letterkenny Army Depot, Letterkenny, Pennsylvania to ANAD. The three relocations addressed in this Supplemental EA resulted from discretionary decisions, based on Commission recommendations, made after the completion of the June 1996 EA.

The relocations from RRAD and DDRT does not involve the transfer of any military or civilian personnel. The relocation of the AGT 1500 engine recuperator manufacturing process from Stratford, CT, involves transfer of 7 civilian contractor jobs with an anticipated growth of 33 more civilian contractor positions from the Anniston area. Adequate facilities and outdoor space for parking of combat vehicles exist at ANAD to accommodate the relocations from RRAD and DDRT. However, the AGT 1500 engine recuperator workload requires renovation of 30,000 square feet of Building 134, an underutilized warehouse facility.

Potential effects on the physical, natural, and cultural environment from the proposed relocations and renovation of Building 134 would be temporary and not significant and would be mitigated through the use of best management practices.

Based on the analysis of the environmental effects of the proposed relocations found in the EA, it has been determined that the implementation of these relocations to ANAD and DDAA would have no significant impacts on the quality of the natural or human environment. Because no significant environmental impacts would result from implementation of the proposed action, an Environmental Impact Statement is not required. Implementation of the proposed action will result in a Finding of No Significant Impact (FNSI).

DATES: Inquiries will be accepted on or before March 17, 1997.

ADDRESSES: Copies of the Supplemental EA and FNSI can be obtained by contacting Dr. Neil Robison at the U.S. Army Corps of Engineers, Mobile District, ATTN: CESAM-PD-E, P.O. Box
