DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request Proposed Projects

Title: Early Head Start Evaluation.
OMB No.: 0970-0143.

Description: The Head Start Reauthorization Act of 1994 established a special initiative creating funding for services for families with infants and toddlers. In response the Administration on Children, Youth and Families (ACYF) designated the Early Head Start (EHS) program. In September 1995, ACYE awarded grants to 68 local programs to serve families with infants and toddlers. ACYF awarded grants to an additional 75 local programs in September 1996.

EHS programs are designated to produce outcomes in four domains: (1) child development, (2) family development, (3) staff development, and (4) community development. The Reauthorization required that this new initiative be evaluated. To study the effect of the initiative, ACYE awarded a contract through a competitive procurement to Mathematica Policy Research, Inc. (MPR) with a subcontract to Columbia University's Center for Young Children and Families. The

evaluation will be carried out from October 1, 1995 through September 30, 2000. Data collection activities that are the subject to this Federal Register notice are intended for the second phase of the EHS evaluation.

The sample for the child and family assessments will be approximately 3,400 families who include a pregnant women or a child under 12 months of age, in 17 EHS study sites. Each family will be randomly assigned to a treatment group or a control group. The sample for the child care assessments will include the primary child care provider for the focal child in each of the 3,400 study sample families. The surveys and assessments will be conducted through computer-assisted telephone and personal interviewing, pencil and paper self-administered questionnaires, structured observations and videotaping. All data collection instruments have been designed to minimize the burden on respondents by minimizing interviewing and assessment time. Participation in the study is voluntary and confidential.

The information will be used by government managers, Congress and others to identify the features and evaluate the effectiveness of the EHS program.

Respondents: Applicants to the Early Head Start program and child care providers for Early Head Start families and control group families.
