### Proposed Project

Positive Activities Campaign (PAC) Evaluation Project; New.

SAMHSA's Center for Substance Abuse Prevention (CSAP) is launching the Positive Activities Campaign, which is an initiative to encourage adults to become more involved in positive, skill-building activities with youth. The ultimate goal of the initiative is to reduce substance abuse among young people. To determine the likely effectiveness of the campaign, CSAP is proposing an evaluation of PAC that consists of both a process and outcomes evaluation. The evaluation will assess change in communities exposed to PAC, including change in adults' involvement with youth. Data for the process evaluation will come primarily from on-site interviews with key personnel; data for the outcomes evaluation will be collected through a baseline and follow up telephone survey of adults. The estimated annual burden hours are as follows:

Data collection instrument	Number of respondents	Hours per response	Total annual response burden
Baseline telephone survey of random sample of adults .....	2,600	0.2	520 hours.
Followup telephone survey of random sample of adults .....	2,000	0.2	400 hours.
In-person interviews with local-level staff for process evaluation .....	280	1.5	420 hours.
Totals .....	.....	.....	1,340 hours.
