BILLING CODE 4910–14–M

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 272**

[FRL–5948–1]

Hazardous Waste Management Program: Incorporation by Reference of Approved State Hazardous Waste Program for Florida

AGENCY: Environmental Protection Agency.

ACTION: Immediate final rule.

SUMMARY: Under the Resource Conservation and Recovery Act of 1976, as amended (RCRA), the United States Environmental Protection Agency (EPA) may grant Final Authorization to States to operate their hazardous waste management programs in lieu of the Federal program. EPA uses Part 272 of Title 40 Code of Federal Regulations (CFR) to provide notice of the authorization status of State programs, and to incorporate by reference those provisions of the State statutes and regulations that EPA will enforce under RCRA Sections 3008, 3013 and 7003. Thus, EPA intends to codify Florida's authorized State program in 40 CFR Part 272. The purpose of this action is to incorporate by reference EPA's approval

of Florida's base hazardous waste program and its revisions to that program.

DATES: This document will be effective March 23, 1998 unless EPA publishes a prior **Federal Register** (FR) action withdrawing this immediate final rule. All comments on this action must be received by the close of business February 19, 1998. The incorporation by reference of certain Florida statutes and regulations was approved by the Director of the Federal Register as of March 23, 1998 in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51.

ADDRESSES: Written comments should be sent to Narindar Kumar, RCRA Programs Branch, Waste Division, Environmental Protection Agency, Atlanta Federal Center, 61 Forsyth Street, Atlanta, Georgia 30303. Telephone number is 404–562–8440.

SUPPLEMENTARY INFORMATION:**Background**

Section 3006 of RCRA 42 U.S.C. 6926 *et seq.*, allows the EPA to authorize State hazardous waste programs to operate in the State in lieu of the Federal hazardous waste program. The purpose of today's **Federal Register** document is to incorporate by reference EPA's approval of Florida's base hazardous waste management program and its twelve revisions to that program.

On January 29, 1985, EPA published a **Federal Register** notice announcing its decision to grant final authorization for the RCRA base program to the State of Florida (see 50 FR 3908). Effective January 30, 1988 (52 FR 45634); October 30, 1988 (53 FR 34759); January 3, 1989 (53 FR 50529); February 12, 1991 (55 FR 51416); April 6, 1992 (57 FR 4370 and 57 FR 4371); April 7, 1992 (57 FR 4738); July 20, 1992 (57 FR 21351); January 10, 1994 (58 FR 59367); September 9, 1994 (59 FR 35266); October 17, 1994 (59 FR 41979); December 27, 1994 (59 FR 53753); and June 2, 1997 (62 FR 15407), EPA granted Florida additional authorization.

On January 29, 1989, Florida transferred Parts I, II, III, IV and V of Chapter 17–30 F.A.C. to a new rule, Chapter 17–730 F.A.C. The Chapter entitled Hazardous Waste remained the same.

EPA provides both notice of its approval of State programs in 40 CFR Part 272 and incorporates by reference

therein the State statutes and regulations that EPA will enforce under Sections 3008, 3013 and 7003 of RCRA. This effort will provide clearer notice to the public of the scope of the authorized program in Florida. Such notice is particularly important in light of the Hazardous and Solid Waste Act Amendments of 1984 (HSWA), Public Law 98–616. Revisions to State hazardous waste programs are necessary when Federal statutory or regulatory authority is modified. Because HSWA extensively amended RCRA, State programs must be modified to reflect those amendments. By incorporating by reference the authorized Florida program and by amending the Code of Federal Regulations whenever a new or different set of requirements is authorized in Florida, the status of Federally approved requirements of the Florida program will be readily discernible.

The Agency will only enforce those provisions of the Florida hazardous waste management program for which authorization approval has been granted by EPA. This document incorporates by reference provisions of State hazardous waste statutes and regulations and clarifies which of these provisions are included in the authorized and Federally enforceable program. Concerning HSWA, some State requirements may be similar to HSWA requirements that are in effect under Federal statutory authority in that State. However, a State's HSWA-type requirements are not authorized and will not be codified into the CFR until the Regional Administrator publishes his final decision to authorize the State for specific HSWA requirements. Until such time, EPA will enforce the HSWA requirements and not the State analogues.

Florida's Authorized Hazardous Waste Program

To incorporate by reference the Florida authorized hazardous waste program, EPA intends to add Subpart K to 40 CFR Part 272. The State statutes and regulations are incorporated by reference at 40 CFR 272.501(b)(1) and the Memorandum of Agreement, the Attorney General's Statement and the Program Description are referenced at 40 CFR 271.501(b)(5), (b)(6) and (b)(7), respectively.

The Agency retains the authority under Sections 3007, 3008, 3013 and 7003 of RCRA to undertake enforcement actions in authorized States. With respect to such an enforcement action, the Agency will rely on Federal sanctions, Federal inspection authorities, and the Federal

Administrative Procedure Act rather than the authorized State analogues to these requirements. Therefore, the Agency does not intend to incorporate by reference for purposes of enforcement such particular, authorized Florida enforcement authorities. Section 272.501(b)(2) of 40 CFR lists those authorized Florida authorities that are part of the authorized program but are not incorporated by reference.

The public also needs to be aware that some provisions of the State's hazardous waste management program are not part of the Federally authorized State program. These non-authorized provisions include:

(1) Provisions that are not part of the RCRA Subtitle C program because they are "broader in scope" than RCRA Subtitle C (see 40 CFR 271.1(i));

(2) Federal rules for which Florida is not authorized, but which have been incorporated into the State regulations because of the way the State adopted Federal regulations by reference;

(3) Unauthorized amendments to State provisions previously reviewed and approved by EPA.

State provisions which are "broader in scope" than the Federal program are not incorporated by reference for purposes of enforcement in 40 CFR 272. Section 272.501(b)(3) of 40 CFR lists for reference and clarity the Florida statutory and regulatory provisions which are "broader in scope" than the Federal program and which are not, therefore, part of the authorized program being incorporated by reference. "Broader in scope" provisions will not be enforced by EPA; the State, however, will continue to enforce such provisions.

Florida has adopted but is not authorized for the corrective action portion of the HSWA Codification Rule published on July 15, 1985 (50 FR 28702); the Corrective Action portions (for injection wells and for corrective action beyond the facility boundary) and the permit modification portion of the HSWA Codification Rule 2 published on December 1, 1987 (52 FR 45788); Burning of Hazardous Waste in Boilers and Industrial Furnaces rules published on February 12, 1991, July 1, 1991, August 27, 1991, August 25, 1992, and September 30, 1992 (56 FR 7134, 56 FR 32688, 56 FR 42504, 57 FR 38558, and 57 FR 44999, respectively); the Coke Ovens Administrative Stay rule published on September 5, 1991 (56 FR 43874); the Recycled Coke By-Product Exclusion rule published on June 22, 1992 (57 FR 27880); amendments to 40 CFR Parts 260, 261, 264, 265, and 266 relative to Recycled Used Oil Management Standards rules published

on September 10, 1992 and May 3, 1993 (57 FR 41566 and 58 FR 26420, respectively); and the Corrective Action Management Units and Temporary Units rule published on February 16, 1993 (58 FR 8658). Therefore, these Federal rules which are included in the Florida Administrative Code (F.A.C.), effective September 7, 1995, Sections 62-730.020(1), 62-730.030(1), 62-730.180(1), 62-730.180(2), 62-730.181, 62-730.183 and 62-730.220(3) are not federally enforceable.

Since EPA cannot enforce a State's requirements which have not been reviewed and approved according to the Agency's authorization standards, it is important that EPA clarify any limitations on the scope of a State's approved hazardous waste program. Thus, in those instances where a State's method of adopting Federal law by reference has the effect of including unauthorized requirements, EPA will provide this clarification by: (1) incorporating by reference the relevant State legal authorities according to the requirements of the Office of Federal Register; and (2) subsequently identifying in 272.501(b)(4) any requirements which while adopted and incorporated by reference, are not authorized by EPA, and therefore are not Federally enforceable. Thus, notwithstanding the language in the Florida hazardous waste regulations incorporated by reference at 272.501(b)(1), EPA would only enforce the State provisions that are actually authorized by EPA. With respect to HSWA requirements for which the State has not yet been authorized, EPA will continue to enforce the Federal HSWA standards until the State receives specific HSWA authorization from EPA.

HSWA Provisions

As noted above, the Agency is not amending 40 CFR Part 272 to include HSWA requirements and prohibitions that are immediately effective in Florida and other States. Section 3006(g) of RCRA provides that any requirement or prohibition of HSWA (including implementing regulations) takes effect in authorized States at the same time that it takes effect in non-authorized States. Thus, EPA has immediate authority to implement a HSWA requirement or prohibition once it is effective. A HSWA requirement or prohibition supersedes any less stringent or inconsistent State provision which may have been previously authorized by EPA (See 50 FR 28702, July 15, 1985).

Because of the vast number of HSWA statutory and regulatory requirements taking effect over the next few years,

EPA expects that many previously authorized and incorporated by reference State provisions will be affected. The States are required to revise their programs to adopt the HSWA requirements and prohibitions by the deadlines set forth in 40 CFR 271.21, and then to seek authorization for those revisions pursuant to 40 CFR Part 271. EPA expects that the States will be modifying their programs substantially and repeatedly. Instead of amending the 40 CFR Part 272 every time a new HSWA provision takes effect under the authority of RCRA Section 3006(g), EPA will wait until the State receives authorization for its analog to the new HSWA provision before amending the State's 40 CFR Part 272 incorporation by reference. In the interim, persons wanting to know whether a HSWA requirement or prohibition is in effect should refer to 40 CFR 271.1(j), as amended, which lists each such provision.

The incorporation by reference of State authorized programs in the CFR should substantially enhance the public's ability to discern the current status of the authorized State program and clarify the extent of Federal enforcement authority. This will be particularly true as more State program revisions to adopt HSWA provisions are authorized.

Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Pub. L. 104-4, establishes requirements for Federal agencies to assess the effects of certain regulatory actions on State, local, and tribal governments and the private sector. Under Sections 202 and 205 of the UMRA, EPA generally must prepare a written statement of economic and regulatory alternatives analyses for proposed and final rules with Federal mandates, as defined by the UMRA, that may result in expenditures to State, local, and tribal governments, in the aggregate, or to the private sector, of \$100 million or more in any one year. The Sections 202 and 205 requirements do not apply to today's action because it is not a "Federal mandate" and because it does not impose annual costs of \$100 million or more.

Today's rule contains no Federal mandates for State, local or tribal governments or the private sector for two reasons. First, today's action does not impose new or additional enforceable duties on any State, local or tribal governments or the private sector because it merely makes federally enforceable existing requirements with which regulated entities must already comply under State law. Second, the

Act also generally excludes from the definition of a "Federal mandate" duties that arise from participation in a voluntary Federal program. The requirements being codified today are the result of Florida's voluntary participation in accordance with RCRA Subtitle C.

Even if today's rule did contain a Federal mandate, this rule will not result in annual expenditures of \$100 million or more for State, local, and/or tribal governments in the aggregate, or the private sector because today's action merely codifies an existing State program that EPA previously authorized. Thus, today's rule is not subject to the requirements of Sections 202 and 205 of the UMRA.

The requirements of Section 203 of UMRA also do not apply to today's action. Before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, including tribal governments, Section 203 of UMRA requires EPA to develop a small government agency plan. This rule contains no regulatory requirements that might significantly or uniquely affect small governments. The Agency recognizes that although small governments may be hazardous waste generators, transporters, or own and/or operate TSDFs, this codification incorporates into the Code of Federal Regulations Florida's requirements which have already been authorized by EPA under 40 CFR Part 271 and, thus, small governments are not subject to any additional significant or unique requirements by virtue of this codification.

Certification Under the Regulatory Flexibility Act

EPA has determined that this codification will not have a significant economic impact on a substantial number of small entities. Such small entities which are hazardous waste generators, transporters, or which own and/or operate TSDFs are already subject to the State requirements authorized by EPA under 40 CFR Part 271. EPA's codification does not impose any additional burdens on these small entities. This is because EPA's codification would simply result in an administrative change, rather than a change in the substantive requirements imposed on small entities.

Therefore, EPA provides the following certification under the Regulatory Flexibility Act, as amended by the Small Business Regulatory Enforcement Fairness Act. Pursuant to the provision at 5 U.S.C. 605(b), I hereby certify that this codification will not have a

significant economic impact on a substantial number of small entities. This codification incorporates "State's" requirements which have been authorized by EPA under 40 CFR Part 271 into the Code of Federal Regulations. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

Submission to Congress and the General Accounting Office

Under 5 U.S.C. 801(a)(1)(A), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, EPA submitted a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the General Accounting Office prior to publication of the rule in today's **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this rule from the requirements of Section 6 of Executive Order 12866.

Paperwork Reduction Act

Under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, Federal agencies must consider the paperwork burden imposed by any information request contained in a proposed rule or a final rule. This rule will not impose any information requirements upon the regulated community.
