DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Clean Air Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that a proposed consent decree in *United States v. Block Island Power Company, Inc.*, Civil Action No. 98-045-ML was lodged on January 28, 1998, in the United States District Court for the District of Rhode Island. The consent decree settles an action commenced in a complaint filed January 28, 1998, under the Clean Air Act, 42 U.S.C. 7401 *et seq.*, arising out of operations at the Block Island Power Company, Inc. ("BIPCO") facility on Block Island in the State of Rhode Island. BIPCO generates and sells electricity to the residents of Block Island through the use of diesel generators. The air pollutants emitted by the diesel generators include nitrogen oxides ("NO_x"). NO_x is an ozone precursor which means that, once emitted, it is transformed in the atmosphere through reaction with volatile organic compounds into ground-level ozone or "smog."

The complaint alleges that BIPCO failed to obtain a permit prior to installation of eight diesel generators as required by Prevention of Significant Deterioration and Non-Attainment New Source Review requirements of the Clean Air Act, EPA regulations, and the State of Rhode Island State Implementation Plan. The complaint also alleges violations of the acid rain provisions of the Clean Air Act.
