**DEPARTMENT OF DEFENSE****Department of the Army****Notification of Location and Hours of Operation for Armed Forces Discharge Review/Correction Board Reading Room****AGENCY:** Army Review Board Agency.**ACTION:** Notice.

**SUMMARY:** In compliance with DoD Directive 1332.28D3f, the Secretary of the Army hereby gives notice of the location, hours of operation and similar types of information regarding the Reading Room. Effective 22 April 1999, the Reading Room will be relocated from Room 2E123, the Pentagon to 1941 Jefferson Davis Highway, Crystal Mall #4, Room 227. The hours of operation will be each Thursday from 7:30 a.m. to 4:00 p.m.

**FOR FURTHER INFORMATION CONTACT:** Ed Troxell, Army Review Board Agency, 1941 Jefferson Davis Highway, Crystal Mall #4, Arlington, VA 22202.

**SUPPLEMENTARY INFORMATION:** Discharge Review Board (DRB) documents are

made available for public inspection and copying, and are located in the Reading Room. The documents are indexed in a usable and concise format so as to enable the public, the applicant and/or those who represent applicants, to locate a decision document that is similar in circumstance or reasons for which the DRB or the Secretary concerned granted or denied relief.

**DEPARTMENT OF DEFENSE****Department of Army; Army Corps of Engineers****Notice of Intent and Notice of Preparation for an Environmental Impact Statement and Environment Impact Report for a Proposed Flood Reduction Investigation in Stanislaus County, CA**

**AGENCY:** U.S. Army Corps of Engineers (Corps), Sacramento District (Federal); Stanislaus County, California (local).

**ACTION:** Notice.

**SUMMARY:** The objectives of this project are to identify a flood reduction plan that will yield a sound project, both

functionally and economically, to reduce flood damages to the populated towns of Newman and Patterson, California and the surrounding agricultural land. The intent of this project is to improve the hydraulic conveyance of the Orestimba and Salado Creeks. Environmental restoration may be a component to the plan if a sponsor can be identified.

**FOR FURTHER INFORMATION CONTACT:**

Questions about the proposed action and EIS/EIR can be answered by Jerry Fuentes at (916) 557-6706 or by mail at U.S. Army Corps of Engineers, Planning Division, ATTN: CESPK-PD-R, 1325 J Street, Sacramento, California, 95814-2922.

**SUPPLEMENTARY INFORMATION:****1. Proposed Action**

The Corps, in cooperation with the local sponsor (Stanislaus County), is conducting a feasibility investigation on the alternative flood damage reduction measures identified during the expedited reconnaissance phase and described in the Project Study Plan dated September 1998. This flood control investigation proposes to reduce the flood hazards currently associated with flood flows along Orestimba and Salado Creek.

## 2. Alternatives

The feasibility report will address an array of alternatives. Alternatives analyzed during the feasibility investigation will be a combination of one or more flood reduction measures identified during the reconnaissance phase; additional measures may be considered. These alternative measures include detention basins, hydraulic system modifications, creek widening, structural modifications, and snag clearing.

a. No Action. There will be no flood control projects implemented for west Stanislaus County.

b. Detention basin and hydraulic system modifications are proposed for Salado Creek. This alternative focuses on safely conveying flood flows from the Salado Creek foothills to the San Joaquin River.

Detention basin, creek widening, and structural modifications are proposed for Orestimba Creek. This alternative focuses on conveying flood flows from the Orestimba Creek foothills to the San Joaquin River.

## 3. Scoping Process

a. The project study plan provides for public scoping meeting and comment. The Corps has initiated a process of involving concerned individuals, local, state, and Federal agencies.

b. Significant issues to be analyzed in depth in the EIS/EIR include appropriate levels of the flood damage reduction, adverse effects on vegetation and wildlife resources, special-status species, esthetics, cultural resources, recreation, and cumulative impacts of related projects in the study area.

c. The Corps will consult with the State Historic Preservation Officer and the U.S. Fish and Wildlife Service to provide a Fish and Wildlife Coordination Act Report as an appendix to the EIS/EIR.

d. A 45-day public review period will be provided for individuals and agencies to review and comment on the EIS/EIR. All interested parties should respond to this notice and provide a current address if they wish to be notified of the EIS/EIR circulation.

4. A public scoping meeting will be held on March 3, 1999, from 3:00 p.m. to 8:00 p.m. at West Side Theater, 1331 Main Street, Newman, California.

## 5. Availability

The EIS/EIR is scheduled to be available for public review and comment late in calendar year 2000.

Dated: February 26, 1999.
