A separate FDAMA section on the FDA web site will provide current information about these public meetings. It is highly recommended that individuals who wish to participate at these public meetings plan to attend the entire session. Each public meeting will include an opportunity for an open comment session where attendees can express their views.

The interactive satellite teleconference is a C-Band broadcast with the following coordinates: satellite GE-2, 85 West, Transponder 3, frequency 3760 MHz Vertical. Test signal begins at 12 noon Eastern Time. The satellite teleconference will begin promptly at 1 p.m. Eastern Time and end no later than 3:30 p.m. Eastern Time. Limited seating will be available for a live studio audience at the broadcast studio in Gaithersburg, MD. Individuals representing broad interest groups are invited to participate in the studio audience. A balanced representation of FDA stakeholders will be selected. Stakeholders who are interested in participating in the broadcast as a member of the studio audience should indicate their interest by April 15, 1999, to Carrie Smith Hanley, Office of External Affairs at the phone, fax or e-mail address listed in the section of this document entitled **"For Further Information Contact"**.

IV. Registration and Requests for Oral Presentations

All participants should send registration information (including name, title, firm name, address, telephone and fax number) to the appropriate "attendance registration" contact person listed in section III of this document by April 16, 1999. If you need special accommodations due to a disability, please indicate such at the time of registration.

Participants who wish to make a formal oral presentation should register with the appropriate contact for "speaker registration" identified by

meeting in section III of this document by April 9, 1999. Formal oral presentations will not be made at the studio. Stakeholders wishing to make presentations should make their wishes known to the appropriate individuals listed in section III of this document.

V. Transcripts

Transcripts of the meetings (from each site listed in section III of this document) may be requested in writing from the Freedom of Information Office (HFI-35), Food and Drug Administration, 5600 Fishers Lane, rm. 12A-16, Rockville MD 20857, approximately 15 working days after the meeting at a cost of 10 cents per page. The transcript of the meeting will be available for public examination at the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday, as well as on the FDA web site "<http://www.fda.gov>".

Dated: March 17, 1999.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health

Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: State Treatment Outcomes and Performance Pilot Studies Enhancement (TOPPS II)—New—The Center for Substance Abuse Treatment (CSAT) will develop a standardized approach that systematically measures the treatment outcomes of clients as they progress through State substance abuse treatment systems funded by the Substance Abuse Prevention and Treatment Block Grant (SAPT BG). The goal underlying TOPPS II is to enable Single State Authorities (SSAs) to collect information on SAPT BG funded treatment services and to monitor common substance abuse treatment effectiveness data measures across various State management

information systems (MISs). The TOPPS II program supports initiatives to design or enhance State MISs or outcomes monitoring systems (OMS) which assess treatment outcomes measures and costs for providing treatment services. Nineteen SSAs are planning to conduct and pilot test studies of specific components of substance abuse treatment systems by incorporating common data measures across all nineteen States on an inter-State (i.e., with the States acting mutually together) basis. The TOPPS II study furthers the work begun by CSAT under TOPPS I. Ten of the nineteen TOPPS II States had received TOPPS I funding. Most of these States are now using the treatment outcomes assessment instruments developed during the TOPPS I project. All such instruments received OMB approval (OMB control number 0930-0182).

During TOPPS II initial project implementation, a consensus-derived core data set has been designed to identify key performance measures in two domains: Effectiveness and efficiency. Within these domains, data will be collected that will permit States and CSAT to assess client outcomes (improvement) for indicators such as confinement in a controlled environment, frequency of overnight hospitalizations and emergency room visits, pregnancy status, child care responsibilities, employment patterns, participation in vocational training or educational programs, arrests, living arrangements, and drug use patterns. These data will be collected through

completion of the client-oriented core data set.

The inter-State evaluation design for TOPPS II participants will be a pre-test/post-test design that collects standardized data at client intake, discharge, and again at follow-up. This time frame is necessary to allow treatment providers the opportunity to assess the complex causal links between program processes and client outcomes and to monitor common substance abuse treatment effectiveness data measures across various State MISs. In addition, all State-specific designs will incorporate measures of client satisfaction at selected intervals, which is essential to the assessing the quality, efficiency and efficacy of services.

This initiative is crucial to support CSAT in developing State substance abuse treatment accountability measures. The inter-State data base will incorporate standardized outcome measures which will be voluntarily reported on by States in their Fiscal Year 2000 SAPT BG applications. It will also comply with GPRA reporting requirements to establish measurable performance goals for SAPT BG recipients. Through these efforts, TOPPS II will contribute to the future development of a standardized national approach that measures the effectiveness and efficiency of public substance abuse treatment system. The estimated annualized burden for TOPPS II core data set collection for the inter-State evaluation design, over the next three years is presented below.
