

rectifiers, antenna and terminals, other telecom and audio parts (duty rate range: free=6.2%).

FTZ procedures would exempt MCIC from Customs duty payments on the foreign components used in export production (about 5% of shipments). On its domestic sales, MCIC would be able to choose the duty rates during Customs entry procedures that apply to automotive audio/electronic and telecommunications products (free=5.1%) for the foreign inputs noted above. The motor vehicle duty rate (2.5%) could apply to the finished automotive audio products that are shipped to U.S. motor vehicle assembly plants with subzone status for inclusion into finished motor vehicles under FTZ procedures. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is April 26, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 10, 1999).
