## **Gray Portland Cement and Cement** Clinker from Japan; Final Results of **Antidumping Duty Expedited Sunset** Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Final Results of Expedited Sunset Review: Gray Portland Cement and Cement Clinker From Japan.

SUMMARY: On August 2, 1999, the Department of Commerce ("the Department") published the notice of initiation of sunset review of the antidumping duty order on gray portland cement and cement clinker from Japan (64 FR 41915), pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). The merchandise covered by this order is gray cement, which is hydraulic cement and the primary component of concrete, and cement clinker, which is an intermediate material produced when manufacturing cement and has no use other than grinding into finished cement. On the basis of a notice of intent to participate and adequate substantive response filed on behalf of a domestic interested party, and inadequate response (in this case no response) from respondent interested parties, we determined to conduct an expedited sunset review. Based on our analysis of the comments received, we find that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping at the levels listed below in the section entitled Final Results of the Review.

EFFECTIVE DATE: March 3, 2000.

FOR FURTHER INFORMATION CONTACT: Eun W. Cho or Melissa G. Skinner, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1698 or (202) 482-1560, respectively.

### SUPPLEMENTARY INFORMATION:

## The Applicable Statute

Unless otherwise indicated, all citations to the Act, are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations to the Department regulations are to 19 CFR Part 351 (1999). Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department Policy Bulletin 98:3-Policies Regarding the Conduct of Fiveyear ("Sunset") Reviews of Antidumping and Countervailing Duty Orders; Policy Bulletin, 63 FR 18871 (April 16, 1998) (Sunset Policy Bulletin).

### Background

On August 2, 1999, the Department published the notice of initiation of sunset review of the antidumping duty order on grav portland cement and cement clinker from Japan (64 FR 41915). We invited parties to comment. On the basis of a notice of intent to participate and adequate substantive response filed on behalf of a domestic interested party, and inadequate response (in this case no response) from respondent interested parties, we determined to conduct an expedited sunset review. The Department is conducting this sunset review in accordance with sections 751 and 752 of the Act.

In accordance with section 751(c)(5)(C)(v) of the Act, the Department may treat a review as extraordinarily complicated if it is a review of a transition order (i.e., an order in effect on January 1, 1995). This review concerns a transition order within the meaning of section 751(c)(6)(C)(ii) of the Act. Therefore, on December 3, 1999, the Department determined that the sunset review of the antidumping duty order on gray portland cement and cement clinker from Japan is extraordinarily complicated and extended the time limit for completion of the final results of this review until not later than February 28, 2000, in accordance with section 751(c)(5)(B) of the Act.1

## Scope of Review

The products covered by this order are gray portland cement and cement clinker ("portland cement") from Japan. Gray portland cement is a hydraulic

cement and the primary component of concrete. Cement clinker, an intermediate material produced when manufacturing cement, has no use other than grinding into finished cement. Microfine cement was specifically excluded from the antidumping duty order. Gray portland cement is currently classifiable under the Harmonized Tariff Schedule ("HTS") item number 2523.29, and cement clinker is currently classifiable under HTS item number 2523.10. Gray portland cement has also been entered under item number 2523.90 as other hydraulic cements. The Department made two scope rulings regarding the subject merchandise.2

# **Analysis of Comments Received**

All issues raised in substantive responses by parties to this sunset review are addressed in the Issues and Decision Memorandum ("Decision Memo") from Jeffrey A. May, Director, Office of Policy, Import Administration, to Joseph A. Spetrini Acting Assistant Secretary, dated February 28, 2000, which is hereby adopted and incorporated by reference into this notice. The issues discussed in the attached Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail were the order revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in B-099.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at www.ita.doc.gov/import\_admin/records/frn/, under the heading Japan. The paper copy and electronic version of the Decision Memo are identical in content.

# Final Results of Review

We determine that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Manufacturer/exporter	Margin (percent)
NihonOnodaAll others	69.89 70.52 70.23

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections section 751(c), 752, and 777(i) of the Act.

Dated: February 28, 2000.

Tapered Roller Bearings From the People's Republic of China; Final Results of Full Sunset Review:

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Final Results of Full Sunset Review: Tapered Roller Bearings from the Peoples Republic of China.

SUMMARY: On October 22, 1999, the Department of Commerce ("the Department") published a notice of preliminary results of the full sunset review of the antidumping duty order on tapered roller bearings ("TRBs") from the People's Republic of China (64 FR 57034) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). We provided interested parties an opportunity to comment on our preliminary results. We received comments from both domestic and respondent interested parties and held a public hearing. As a result of this review, the Department finds that revocation of this order would be likely to lead to continuation or recurrence of dumping.
