As such, the FPLS serves as a conduit between child support enforcement offices and Federal and State agencies by conducting weekly, biweekly, or monthly matches of the collected information with various agencies and distributing the information back to the requesting State or local child support office.

Respondents: State, Local or tribal Government.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

[Form #HCFA-R-0264 A-H / Supplement]

[Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)]

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the

Health Care Financing Administration (HCFA), Department of Health and Human Services (DHHS), is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collections referenced below. In

compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review because the collection of this information is needed prior to the expiration of the normal time limits under OMB's regulations at 5 C.F.R. Part 1320. The Agency cannot reasonably comply with the normal clearance procedures because of a statutory deadline imposed by section 1853(a)(3) of the Balanced Budget Act of 1997. Without this information, HCFA would not be able to properly implement the requirements set forth in the statute. In order to fully test the operations of competitive bidding at the second site, and to thus test the President's plans for this part of value based purchasing, it is necessary to operate the demonstration for at least two years. The authorizing legislation for the demonstration, section 1847 of the Balanced Budget Act, states that "all projects under this section shall terminate not later than December 31, 2002." In order to operate the demonstration for two years, we need to implement the demonstration at the second site starting January 1, 2001. Because of the need for nine months for processing and bidding operations, we must have emergency approval of the forms in order to proceed with the demonstration on time and as needed. Using the regular clearance process would not allow the demonstration a full two year's of operation as needed for a full test of the bidding concept.

HCFA is requesting OMB review and approval of this collection by February 15, 2000, with a 180-day approval period. Written comments and recommendations will be accepted from the public if received by the individual designated below by January 31, 2000. During this 180-day period, we will publish a separate **Federal Register** notice announcing the initiation of an extensive 60-day agency review and public comment period on these requirements. We will submit the requirements for OMB review and an extension of this emergency approval.

Type of Information Collection

Request: New collection;

Title of Information Collection:

Medicare DMEPOS Competitive Bidding Demonstration: Site 2;

Form No.: HCFA-R-0264 A-H /Supplement;

Use: Section 4319 of the Balanced Budget Act (BBA) mandates HCFA to implement demonstration projects under which competitive acquisition areas are established for contract award

purposes for the furnishing of Part B items and services, except for physician's services. The first of these demonstration projects implements competitive bidding of categories of durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS). The new set of products to be offered for competitive bidding are: oxygen equipment and supplies, hospital beds, standardized orthotic products, manual wheelchairs, and nebulizer drugs. Under the law, suppliers can receive payments from Medicare for items and services covered by the demonstration only if their bids are competitive in terms of quality and price. Each demonstration project may be conducted in up to three metropolitan areas for a three year period. Authority for the demonstration expires on December 31, 2002. The schedule for the demonstration anticipates about a six month period required between mailing the bidding forms to potential bidders and the start of payments for DMEPOS under the demonstration. There are eight forms that are required for this demonstration. Form A will be used by the bidding supplier to provide information about the characteristics of the company. Form B will be used by the bidding supplier to provide specific information about the prices it bids for specific product categories, and to provide information about the attributes of the supplier in relation to the specific product category. Form C will be used by HCFA or its agents to obtain information on site regarding the bidding supplier. Form D will be used by HCFA or its agents to obtain financial references on the bidding supplier from banks and other financial sources. Form E will be used by HCFA or its agents to obtain information about the bidding suppliers from referral sources such as home health agencies and hospital discharge planners. Form F will be used to obtain information about the suppliers' financial status and to assure that they have sufficient fiscal resources to operate in a competitive environment where the prices being paid for some products are less than what have been customarily paid. It is required only from suppliers whose bids are in the competitive range. Form G will be used for nursing facilities to identify their suppliers of products and services who have not been awarded Demonstration Supplier status for services to beneficiaries in their home. This is to permit payment to those suppliers for products services furnished to nursing facilities. Form H is a new form added since the demonstration of the first site. It will be used to monitor the

performance of Demonstration Suppliers to assure their adherence to the quality standards established for the project.

The competitive bidding demonstration for DMEPOS has the following objectives:

- Test the policies and implementation methods of competitive bidding to determine whether or not it should be expanded as a Medicare Program.
- Reduce the price that Medicare pays for medical equipment and supplies.
- Limit beneficiary out-of-pocket expenditures for copayments.
- Improve beneficiary access to high quality medical equipment and supplies.
- Prevent business transactions with suppliers who engage in fraudulent practices.

Frequency: On occasion;

Affected Public: Business or other for-profit, and not-for-profit institutions;

Number of Respondents: 1,375;
