breakfast program was implemented, changes in program operations and administration, and its costs. The evaluation may include a preimplementation survey of parents to identify students who would be most likely to become new participants under a universal-free breakfast program. Approximately 150 students would be sampled from rosters of enrolled students provided by each of the 144 participating schools. The students' parents/guardians would be surveyed in telephone interviews lasting about 10-15 minutes. The survey would obtain information on children's participation in the regular School Breakfast Program, the likelihood that the student would participate in the universal-free program, and attitudes about breakfast and the School Breakfast Program. The survey would also collect information on the household's socioeconomic characteristics and student characteristics. This request for OMB approval is only for the preimplementation survey. A separate package will be submitted to OMB for the remainder of the data collection instruments to be used in this evaluation.

Estimate of Burden: Public reporting burden is estimated to range between 10 and 15 minutes for each household.

Respondents: Parents/guardians of sampled students will be asked to respond to a short telephone survey.

Estimated Number of Respondents: 150 households from each of 144 elementary schools totaling 21,600 households.

Estimated Number of Responses per Respondent: One.

Estimated Total Annual Burden on Respondents: 5,400 hours.

Dated: April 11, 2000.

George A. Braley,

Acting Administrator, Food and Nutrition Service.

Glycine From the People's Republic of China: Extension of Time Limit for Preliminary Results of the New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for preliminary results of antidumping duty administrative review.

SUMMARY: The Department of Commerce ("the Department") is extending the time limit for the preliminary results of a new shipper review of glycine from the People's Republic of China ("China"). This review covers one Chinese producer, Nantong Dongchang Chemical Industry Corp. ("Nantong"), for the period March 1, 1999 through August 31, 1999.

EFFECTIVE DATE: April 17, 2000.

FOR FURTHER INFORMATION CONTACT:

Maria Dybczak at (202) 482–5811; Office of AD/CVD Enforcement, Group III, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230.

The Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 ("the Act") by the Uruguay Round Agreements Act ("URAA").

Postponement of Preliminary Results

The Department has determined that it is not practicable to issue its preliminary results of the administrative review within the original time limit of April 29, 2000. See Decision Memorandum from Edward C. Yang, Office Director to Joseph A. Spetrini, Deputy Assistant Secretary, Enforcement Group III, April 7, 2000. The Department is extending the time limit for completion of the preliminary results until June 28, 2000 in accordance with Section 751(a)(2)(B)(iv) of the Act.

The deadline for the final results of this review will continue to be 90 days after the signature date of the preliminary results.

Dated: April 7, 2000.

Agreement Suspending the Antidumping Investigation on Uranium From Uzbekistan

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of Price Determination on Uranium from Uzbekistan.

SUMMARY: Pursuant to Sections IV.A(2) and IV.C.1 of the agreement suspending the antidumping investigation on uranium from Uzbekistan, as amended, (antidumping suspension agreement on uranium from Uzbekistan), the Department of Commerce (the Department) calculated a price for uranium of \$10.05/pound of U₃O₈ for the relevant period, as appropriate. This price will be used, as appropriate, to implement to Sections IV.A(2) and IV.C.1 of the Uzbekistan agreement. **EFFECTIVE DATE:** April 1, 2000.

FOR FURTHER INFORMATION CONTACT:
James Doyle or Marlene Hewitt, Office of Antidumping/Countervailing Duty

Enforcement—Group III, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Ave., NW, Washington, DC 20230; telephone: (202) 482–0159 or (202) 482–6412 respectively.

Price Calculation

Background

Sections IV.A(2) and IV.C.1 of the antidumping suspension agreement on uranium from Uzbekistan prescribe that the Department issue its determined market price on April 1, 2000, and use it to determine the quota applicable to the above referenced provisions of Uzbekistan's agreement during the period of October 1, 1999, to March 31, 2000. Consistent with the February 22, 1993 letter of interpretation, the Department provided interested parties with the applicable preliminary price determination on March 27, 2000. No interested party submitted comments.

Calculation Summary

Sections IV.A(2) and IV.C.1 of the agreement specify how the components of the market price are to be determined. In order to determine the spot market price, the Department utilized the monthly average of the Uranium Price Information System Spot Price Indicator (UPIS SPI) and the weekly average of the Uranium Exchange Spot Price (Ux Spot). In order to determine the long-term market price, the Department utilized a simple average of the UPIS U.S. Base Price for the months in the period as no useable contract information was submitted.

The Department's letters to market participants provided a contract summary sheet and directions requesting the submitter to report its best estimate of the future price of merchandise to be delivered in accordance with the contract delivery schedules (in U.S. dollars per pound U_3O_8 equivalent). As all reported information had already been reported to UPIS or was for spot contracts or was for out-of-period contracts or used inherently speculative market-pricing, none were useable for the Department's calculation.

Weighting

The Department used the average spot and long-term volumes of U.S. utility and domestic supplier purchases, as reported by the Energy Information Administration (EIA) to weight the spot and long-term components of the observed price. We have used the purchase data from the period 1995—1998. During this period, the spot

market accounted for 76.61 percent of total purchases, and the long-term market for 23.39 percent.

As in previous determinations, the Department used the EIA's Uranium *Industry Annual* to determine the available average spot and long-term volumes of U.S. utility purchases. We have updated the data to reflect the period 1995 through 1998. The EIA has withheld certain business proprietary contract data from the public versions of the Uranium Industry Annual 1995, Uranium Industry Annual 1996, Uranium Industry Annual 1997 and the Uranium Industry Annual 1998. The EIA, however, provided all business proprietary data to the Department and the Department has used it to update its weighting calculation.

Calculation Announcement

The Department determined, using the methodology and information described above, that the observed market price is \$10.05. This reflects an average spot market price of \$9.70, weighted at 76.61 percent, and an average long-term contract price of \$11.23, weighted at 23.39 percent. This price will be used, as appropriate, to determine quota availability for purposes of Sections IV.A(2) and IV.A. of the antidumping suspension agreement on uranium from Uzbekistan.

Sea Grant Minority Serving Institutions Partnership Program: Request for Proposals for FY 2000; Correction

AGENCY: National Sea Grant College Program, National Oceanic and Atmospheric Administration, Department of Commerce.

ACTION: Notice; correction.

SUMMARY: The National Oceanic and Atmospheric Administration published a document in the Federal Register on March 14, 2000 announcing that applications were being accepted for the Sea Grant Minority Serving Institution Partnership Program, initiated by the National Sea Grant College Program.

The document is being amended to make Minority Serving Institutions in the state of Alaska eligible to submit proposals.

FOR FURTHER INFORMATION CONTACT: $\mathrm{Dr.}$

Francis Schuler, Executive Director, National Sea Grant College Program, R/ SG, NOAA, 1315 East-West Highway, Silver Spring, MD 20910. Tel. (301) 713–2445 ext. 158; e-mail: fritz.schuler@noaa.gov.

SUPPLEMENTARY INFORMATION: In the March 14, 2000, Federal Register notice soliciting proposals for the Sea Grant Minority Serving Institutions
Partnership Program, a drafting error in the eligibility section of notice occurred. NOAA is now amending this notice to reflect that Minority Serving Institutions in the state of Alaska are eligible to submit proposals to the Partnership Program.

Correction

In the **Federal Register** of March 14, 2000, in FR Doc. 00–6230, on page 13720, in the second column, correct Section III, paragraph (iv) to read as follows:

(iv) institutions of higher education located in U.S. insular areas and the state of Alaska that are on the "1999 United States Department of Education Accredited Post-Secondary Minority Institutions" are eligible to submit proposals.

Program Authority: 33 U.S.C. 1121–1131. Catalog of Federal Assistance Number: 11.417, Sea Grant Support.
