BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP01-69-000]

Petal Gas Storage, L.L.C.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Petal Pipeline Project, and Request for Comments on Environmental Issues

February 22, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of Petal Gas Storage, L.L.C.'s (Petal) proposed Phase II Pipeline Project in Forrest, Jones, Jasper, and Clarke Counties, Mississippi.¹ The project would involve the construction and operation of about 59 miles of 36-inch-diameter pipeline, a new 9,000-horsepower (hp) compressor station, and appurtenance facilities. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a Petal representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" should have been attached to the project notice Petal provided to

¹ Petal's application under section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations was filed on January 23, 2001.
