Random Drug Testing Rate for Covered Crewmembers

AGENCY: Coast Guard, DOT.

ACTION: Notice of minimum random drug testing rate.

SUMMARY: The Coast Guard has set the calendar year 2001 minimum random drug testing rate at 50 percent of covered crewmembers. An evaluation of the 1999 Management Information System (MIS) data collection forms submitted by marine employers determined that random drug testing on covered crewmembers for the calendar year 1999 resulted in positive test results 1.7 percent of the time. Based on this percentage, we will maintain the minimum random drug testing rate at 50 percent of covered crewmembers for the calendar year 2001.

DATES: The minimum random drug testing rate is effective January 1, 2001 through December 31, 2001. You must submit your 2000 MIS reports no later than March 15, 2001.

ADDRESSES: You must mail your annual MIS report to Commandant (G-MOA), U.S. Coast Guard Headquarters, 2100 Second Street SW., Room 2403, Washington, DC 20593-0001.

FOR FURTHER INFORMATION CONTACT: For questions about this notice, please contact Lieutenant Jennifer Ledbetter, Project Manager, Office of Investigations and Analysis (G-MOA), U.S. Coast Guard Headquarters, telephone 202-267-0684.

SUPPLEMENTARY INFORMATION: Under 46 CFR 16.230, the Coast Guard requires marine employers to establish random drug testing programs for covered crewmembers on inspected and uninspected vessels. All marine employers are required to collect and

maintain a record of drug testing program data for each calendar year, January 1 through December 31. You must submit this data to the Coast Guard in an annual MIS report (Form CG-5573 found in appendix B of 46 CFR 16). You may either submit your own MIS report or have a consortium or other employer representative submit the data in a consolidated MIS report. The chemical drug testing data is essential to analyze our current approach for deterring and detecting illegal drug abuse in the maritime industry.

Since 1999 MIS data indicates that the positive random testing rate is greater than one percent industry-wide (1.7 percent), the Coast Guard announces that the minimum random drug testing rate is set at 50 percent of covered employees for the period of January 1, 2001 through December 31, 2001 in accordance with 46 CFR 16.230(e).

You must submit your MIS report to the Coast Guard no later than March 15 of each calendar year. Each year we will publish a notice reporting the results of the previous calendar year's MIS data, and the minimum annual percentage rate for random drug testing for the next calendar year.

Dated: January 8, 2001.

R.C. North,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Marine Safety and Environmental Protection.
