#### Request for Comments

Please submit all comments and attachments in an unbound format no larger than 8½ by 11 inches, suitable for copying and electronic filing. Persons wanting acknowledgment of receipt of comments should enclose stamped self-addressed postcards or envelopes.

#### Information Collection Request

1. *Title:* Official Logbook.

*OMB Control Number:* 2115-0071.

*Summary:* The official logbook contains information about the voyage, the vessel's crew, drills, and operations conducted during the voyage. Its entries identify all particulars of the voyage, including the name of the ship, the official number, the port of registry, the tonnage, the names and the numbers of the merchant mariners' documents of the master and crew, the nature of the voyage, and the class of ship. It also contains entries for the vessel's drafts, maintenance of watertight integrity of the ship, drills and inspections, crew list and report of character, a summary of laws applicable to Logbooks, and miscellaneous entries.

*Need:* 46 U.S.C. Chapter 113 requires that most merchant vessels maintain an official logbook. The logbook contains information about the vessel, voyage, and crew. Lack of these particulars would make it difficult for a seaman to verify vessel employment and wages, and for the Coast Guard to verify compliance with laws and regulations concerning vessel operations and safety procedures. The logbook serves as an official record of recordable events occurring at sea such as births, deaths, marriages, disciplinary actions etc. Absent the logbook there would be no

official civil record of these events. Log entries are accepted by the courts as proof that the event recorded occurred. If this information was not collected, the Coast Guard's program for safety of commercial vessels would suffer, as there would be no official record of voyages by U.S. merchant vessels. Similarly, those seeking to prove that an event occurred would not have any record available.

*Respondents:* Shipping companies.

*Frequency:* On occasion.

*Burden Estimate:* The estimated burden is 1,750 hours a year.

2. *Title:* Applications for Private Aids to Navigation and for Class I Private Aids to Navigation on Artificial Islands and Fixed Structures.

*OMB Control Number:* 2115-0038.

*Summary:* The collection of information requires respondents to provide to the Coast Guard, on two applications (CG-2554 and CG-4143), vital information about private aids to navigation.

*Need:* 33 CFR parts 66 and 67 authorize the Coast Guard to collect and process the information furnished from applications for private aids to ensure that the aids appropriately mark the associated hazard or waterway.

*Respondents:* Owners of private aids to navigation.

*Frequency:* On occasion.

*Burden Estimate:* The estimated burden is 3,037 hours a year.

Dated: March 4, 2002.
