

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated January 14, 2002.

No significant hazards consideration comments received: No.

Tennessee Valley Authority, Docket No. 50-390, Watts Bar Nuclear Plant, Unit 1, Rhea County, Tennessee

Date of application for amendment: May 14, 2001.

Brief description of amendment: The amendment incorporates part of TSTF-51, Revision 2 into the Watts Bar Technical Specifications (TS). TSTF-51 allows revising the TS to eliminate engineered safety features operability requirements that do not involve the movement of irradiated fuel during core alterations.

Date of issuance: January 22, 2002.

Effective date: As of the date of issuance and shall be implemented prior to entering Mode 6 for the Cycle 4 refueling outage.

Amendment No.: 35.

Facility Operating License No. NPF-90: Amendment revises the Technical Specifications.

Date of initial notice in Federal Register: July 25, 2001 (66 FR 38768).

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated January 22, 2002.

No significant hazards consideration comments received: No.

Tennessee Valley Authority, Docket No. 50-390, Watts Bar Nuclear Plant, Unit 1, Rhea County, Tennessee

Date of application for amendment: May 14, 2001.

Brief description of amendment: The amendment revises Technical Specification section 3.3.5 "Loss of Power (LOP) Diesel Generator Start Instrumentation," to increase the time delay setting of the 6.9kV shutdown board degraded voltage relays from a nominal 6 seconds to 10 seconds.

Date of issuance: January 23, 2002.

Effective date: As of the date of issuance and shall be implemented prior to startup following the Cycle 4 refueling outage.

Amendment No.: 36.

Facility Operating License No. NPF-90: Amendment revises the Technical Specifications.

Date of initial notice in Federal Register: July 25, 2001 (66 FR 38767).

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated January 23, 2002.

No significant hazards consideration comments received: No.

TXU Generation Company LP, Docket Nos. 50-445 and 50-446, Comanche Peak Steam Electric Station, Unit Nos. 1 and 2, Somervell County, Texas

Date of amendment request: October 2, 2001.

Brief description of amendments: The amendments delete Technical Specification (TS) 5.5.3, "Post Accident Sampling System," and thereby eliminate the requirements to have and maintain the Post Accident Sampling System (PASS) at Comanche Peak Steam Electric Station. In addition, the amendments revise TS 5.5.2, "Primary Coolant Sources Outside Containment," to reflect the elimination of PASS.

Date of issuance: January 15, 2002.

Effective date: As of the date of issuance and shall be implemented by March 15, 2003.

Amendment Nos.: 91 and 91.

Facility Operating License Nos. NPF-87 and NPF-89: The amendments revised the Technical Specifications.

Date of initial notice in Federal Register: December 12, 2001.

The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated January 15, 2002.

No significant hazards consideration comments received: No.

Dated at Rockville, Maryland, this 29th day of January, 2002.

NUCLEAR REGULATORY COMMISSION

[NUREG-1569]

Solicitation of Comments on a Draft Standard Review Plan (NUREG-1569) for Staff Reviews for in Situ Leach Uranium Extraction License Applications

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability; Opportunity for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is soliciting comments from interested parties on a Draft Standard Review Plan (NUREG-1569) which provides guidance for staff safety and environmental reviews of applications to develop and operate uranium in situ leach facilities. An NRC Materials License is required, under the

provisions of Title 10 of the Code of Federal Regulations, part 40 (10 CFR part 40), Domestic Licensing of Source Material, in conjunction with uranium extraction by in situ leach extraction techniques.

The applicant for a license is required to provide detailed information on the facilities, equipment, and procedures used and an Environmental Report that discusses the effects of proposed operations on the health and safety of the public and on the environment. This information, and the licensee's Environmental Report, are used by the NRC staff to determine whether the proposed activities will be protective of public health and safety and the environment.

This draft Standard Review Plan provides the NRC staff with specific guidance on performing reviews of this information and will be used to ensure a consistent quality and uniformity of staff reviews. Each section in the review plan provides guidance on what is to be reviewed, the basis for the review, how the staff review is to be accomplished, what the staff will find acceptable in a demonstration of compliance with the regulations, and the conclusions that are sought regarding the applicable sections in 10 CFR part 40, Appendix A. The Standard Review Plan is also intended to improve the understanding of interested members of the public, and the uranium recovery industry, of the staff review process.

A draft of NUREG-1569 was issued in October 1997 for public comment. This draft of NUREG-1569 incorporates the staff responses to comments and the results of Commission policy decisions affecting uranium recovery issues, which are described in NRC Regulatory Issue Summary 2000-23, dated November 30, 2000.

Opportunity to Comment: Interested parties are invited to comment on the standard review plan. A final standard review plan will be prepared after the NRC staff has evaluated comments received on the draft standard review plan. Written comments must be received prior to April 22, 2002. Comments on the draft review plan should be sent to the Chief, Rules and Directives Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

A copy of the Draft Standard Review Plan (NUREG-1569) may be obtained by writing to the Reproduction and Distribution Services Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or e-mail distribution@nrc.gov.

FOR FURTHER INFORMATION CONTACT: John Lusher @ (301) 415-7694 or jhl@nrc.gov.

Dated at Rockville, Maryland, this 30th day of January, 2002.

NUCLEAR REGULATORY COMMISSION

[NUREG-1620]

Solicitation of Comments on a Draft Standard Review Plan (NUREG-1620) for Staff Reviews of Reclamation Plans for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability; Opportunity for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is soliciting comments from interested parties on a Draft Standard Review Plan (NUREG-1620) which provides guidance for staff reviews of Reclamation Plans for uranium mill tailings sites covered by Title II of the Uranium Mill Tailings Radiation Control Act. An NRC Materials License is required, under the provisions of Title 10 of the Code of Federal Regulations, part 40 (10 CFR part 40), Domestic Licensing of Source Material, in conjunction with uranium or thorium milling, or with byproduct material at sites formerly associated with such milling.

Appendix A to part 40 establishes technical and other criteria relating to siting, operation, decontamination, decommissioning, and reclamation of mills and tailings. The licensee's site Reclamation Plan documents how the proposed activities demonstrate compliance with the criteria in Appendix A. This information, and the licensee's Environmental Report, are used by the NRC staff to determine whether the proposed activities will be protective of public health and safety and the environment.

This Standard Review Plan provides the NRC staff with specific guidance on performing reviews of this information and will be used to ensure a consistent quality and uniformity of staff reviews. Each section in the review plan provides guidance on what is to be reviewed, the basis for the review, how the staff review is to be accomplished, what the staff will find acceptable in a demonstration of compliance with the

regulations, and the conclusions that are sought regarding the applicable sections in 10 CFR part 40, Appendix A. The Standard Review Plan is also intended to improve the understanding of interested members of the public, and the uranium recovery industry, of the staff review process.

A draft of NUREG-1620 was issued in January 1999 for public comment. A final NUREG-1620, which incorporated NRC staff responses to the comments received on the draft, was issued in June 2000. This draft of NUREG-1620 was developed from the final version of the Standard Review Plan. The issue of a new draft Standard Review Plan was a result of Commission policy decisions affecting uranium recovery issues, which are described in NRC Regulatory Issue Summary 2000-23, dated November 30, 2000.

Opportunity to Comment: Interested parties are invited to comment on the new draft standard review plan. A final standard review plan will be prepared after the NRC staff has evaluated comments received on the draft standard review plan. Written comments must be received prior to April 22, 2002. Comments on the draft standard review plan should be sent to the Chief, Rules and Directives Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

A copy of the Draft Standard Review Plan (NUREG-1620) may be obtained by writing to the Reproduction and Distribution Services Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or e-mail distribution@nrc.gov.

FOR FURTHER INFORMATION CONTACT: John Lusher @ (301) 415-7694 or jhl@nrc.gov.

PEACE CORPS

Proposed Information Collection Requests

AGENCY: Peace Corps.

ACTION: Notice of public use form review request to the Office of Management and Budget (OMB Control Number 0420-0513).

SUMMARY: Pursuant to the Paperwork Reduction Act of 1981 (44 USC, Chapter

35), the Peace Corps has submitted to the Office of Management and Budget a request for approval of information collections, OMB Control Number 0420-0513, the Peace Corps Teacher Brochure/Enrollment Form; the Peace Corps Volunteer Enrollment Form; and the follow-up program survey, the World Wise Schools (WWS) annual Teacher Survey. The purpose of this information collection is to include the participation of interested teachers and Peace Corps Volunteers in the WWS Program. The questionnaire serves to better determine which populations we are serving as well as which teachers have access to alternative information channels. The survey also assists in developing WWS Programs to meet the needs of the schools and teachers it serves. The purpose of this notice is to allow for public comments on whether the proposed collection of information is necessary for the proper performance of the functions of the Peace Corps, including whether their information will have practical use; the accuracy of the agency's estimate of the burden of the proposed collections information, including the validity of the methodology and assumptions used; ways to enhance the quality, utility and the clarity of the information to be collected; and, ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques, when appropriate, and other forms of information technology. A copy of the information collection may be obtained from Ms. Amy Wickenheiser, Peace Corps, Office of Domestic Programs, World Wise Schools, 1111 20th Street, NW, Room 2144, Washington, DC 20526. Ms. Wickenheiser can be contacted by telephone at 202-692-1426 or 800-424-8580 ext 1426. Comments on the form should also be addressed to the attention of Ms. Wickenheiser and should be received on or before April 8, 2002.

Information Collection Abstract

Title: Peace Corps Teacher Brochure/Enrollment Form; Peace Corps Volunteer Enrollment Form; and the World Wise Schools (WWS) annual Teacher Survey.

Need for and Use of This Information: The Peace Corps Teacher and Volunteer Enrollment Forms are completed by interested Teachers and Volunteers who want to participate in the World Wise Schools Program. The Teacher Survey asks questions to better determine which populations we are serving as well as which teachers have access to alternative information channels. The
