BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Notice of Inventions Available for License

AGENCY: Office of General Counsel, Department of Energy.

ACTION: Notice of inventions available for license.

SUMMARY: The Department of Energy hereby announces that the following patents are available for license, in accordance with 35 U.S.C. 207-209: U.S. Patent No. 6,200,816B1, entitled "Method for Measuring Particulate and Gaseous Metals in a Fluid Stream, Device for Measuring Particulate and Gaseous Metals in a Fluid Stream"; U.S. Patent No. 6,379,841, entitled "Solid State Electrochemical Current Source". A copy of the patents may be obtained, for a modest fee, from the U.S. Patent and Trademark Office, Washington, DC 20231.

FOR FURTHER INFORMATION CONTACT:

Robert J. Marchick, Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, U.S. Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585; Telephone (202) 586-2802.

SUPPLEMENTARY INFORMATION: 35 U.S.C. 207 authorizes licensing of Government-owned inventions. Implementing regulations are contained in 37 CFR 404.37 CFR 404.7(a)(1) authorizes exclusive licensing of Government-owned inventions under certain circumstances, provided that notice of the invention's availability for license has been announced in the **Federal Register**.

Issued in Washington, DC, on March 5, 2003.

Paul A. Gottlieb,

Assistant General Counsel for Technology, Transfer and Intellectual Property.

[Docket No. RP03-266-000]

Clear Creek Storage Company, L.L.C.; Notice of Tariff Filing

March 4, 2003.

Take notice that on February 28, 2003, pursuant to 18 CFR 154.7, and in response to the Commission's October 31, 2002, Order on Remand, Clear Creek Storage Company, L.L.C., (Clear Creek) tendered for filing and acceptance to be effective March 31, 2003, proposed revised tariff sheets to Original Volume No. 1 of its FERC Gas Tariff as listed below:

First Revised Sheet No. 47
Second Revised Sheet Nos. 44 and 46A
Third Revised Sheet Nos. 4A and 38
Fourth Revised Sheet No. 41

Clear Creek states that through this filing it will revise its tariff by (1) removing the term matching cap for the right of first refusal and (2) reinstating the price cap for short-term releases. Clear Creek states further that a copy of this filing has been served upon its customers and the Public Service Commission of Wyoming.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.314 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.

Any person wishing to become a party must file a motion to intervene. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or TTY, contact (202) 502-8659. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Comment Date: March 12, 2003.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP03-270-000]

Kern River Gas Transmission Company; Notice of Proposed Changes in FERC Gas Tariff

March 4, 2003.

Take notice that on February 28, 2003, Kern River Gas Transmission Company (Kern River) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets, to be effective as indicated below:

Third Revised Ninth Revised Sheet No. 5
(Effective 4-1-03)
Second Revised Tenth Revised Sheet No. 5
(Effective 5-1-03)
Second Revised Seventh Revised Sheet No. 6
(Effective 4-1-03)
Second Revised Eighth Revised Sheet No. 6
(Effective 5-1-03)

Kern River states that the purpose of this filing is to adjust the electric compressor fuel surcharge applicable to rolled-in rate shippers for quantities of gas scheduled for delivery downstream of the Daggett compressor station and to incorporate the revised surcharge into Kern River's tariff, to be effective April 1, 2003. In conjunction with this filing, and in compliance with the Commission's "Order Issuing Certificate" dated July 26, 2001, pertaining to Kern River's 2002 Expansion Project, Kern River also is submitting a work paper showing the net benefit to vintage shippers of rolling

in its 2002 expansion project after actual fuel costs are considered. Kern River states that it has served a copy of this filing upon its customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.314 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Comment Date: March 12, 2003.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP03-54-000]

Midwestern Gas Transmission Company; Notice of Application

March 4, 2003.

On February 24, 2003, Midwestern Gas Transmission Company (Midwestern), P.O. Box 542500, Omaha, Nebraska 68154-8500, filed in Docket No. CP03-54-000, an application pursuant to Section 7(b) of the Natural Gas Act (NGA), as amended, and part 157 of the regulations of the Federal Energy Regulatory Commission (Commission), for authorization to abandon a natural gas compressor unit and appurtenant facilities located at

Compressor Station No. 2110, in Pike County, Indiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Midwestern states that it proposes to abandon in place a 1,100 horsepower Solar Saturn turbine and appurtenant facilities located at Compressor Station No. 2110, in Pike County, Indiana (Unit 2110-B). Compressor Station No. 2110 is located on Midwestern's mainline, which extends from Sumner County, Tennessee to Will County, Illinois.

Midwestern states that Unit 2110-B was originally installed in 1979, was certified in Docket No. CP73-244, and on December 21, 2000, Midwestern filed a petition for exemption pursuant to Section 7(c)(1)(B) of the NGA. Midwestern states that the petition requested authority to inactivate Unit 2110-B on a temporary basis for a period of 18 to 24 months and that the petition was noticed on January 4, 2001. Midwestern states also that the petition explained that Unit 2110-B was expensive to operate and difficult to maintain due to its age (over 20 years). According to Midwestern, Unit 2110-B's capacity accounts for approximately 1.6% of the total horsepower on the Midwestern system and that abandonment of Unit 2110-B would reduce the capacity by approximately 4 MMcf/d, less than 1% of Midwestern's total throughput capacity. Midwestern states that the abandonment of this natural gas compressor unit will not affect current services on Midwestern's system. According to Midwestern, its current firm commitments across the affected pipeline segment totals 518 MMcf/d. With Unit 2110-B operating, Midwestern's mainline has a certified capacity of 678 MMcf/d but over the past two years the average throughput of the Midwestern system has been 296 MMcf/d. For the past three months, Midwestern states that the average throughput has been 318 MMcf/d. A Commission order granting the petition for exemption was issued on February 23, 2001.

Since the Commission's February 23, 2001 order, Midwestern states that it has determined that Unit 2110-B is not required to meet the firm service

commitments of its existing customers and that current market conditions and volumetric requirements through Compressor Station No. 2110 do not show a need for Unit 2110-B.

Midwestern states that Unit 2110-B is one of five natural gas compressor units located at Compressor Station No. 2110 and that there are no changes required to the four remaining natural gas compressor units or station facilities to meet the current service demands at this location on Midwestern's system. According to Midwestern, Unit 2110-B will be deactivated by removal of valving and associated piping and at such time that the retired natural gas compressor unit and any related appurtenant facilities are dismantled and removed, there is not expected to be any adverse effect on the environment. These facilities are located above ground, on previously disturbed ground, entirely within the boundaries of the Compressor Station No. 2110 site and no ground disturbance is foreseen in the abandonment of this natural gas compressor unit.

Any questions concerning this application may be directed to Raymond D. Nepl, Vice President, Regulatory Affairs and Market Services, Midwestern Gas Transmission Company, P.O. Box 542500, Omaha, Nebraska 68154-8500, at (402) 492-7428.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10) by the comment date below. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition
