Enbridge Pipelines (Louisiana Intrastate) LLC; Notice of Petition for Rate Approval

May 1, 2003.

Take notice that on April 25, 2003, Enbridge Pipelines (Louisiana Intrastate) LLC (Enbridge) filed an amendment to its petition for rate approval, originally filed on March 19, 2003. Enbridge requests a maximum interruptible transportation rate of \$0.3168 per Dth, as compared to the \$0.1544 per Dth requested in its March 19 petition.

Enbridge states that pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days, the rates will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150 day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed with the Secretary of the Commission on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be

taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. This petition for rate approval is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link.
