("CEMEX") filed a first request for panel review with the United States Section of the NAFTA Secretariat pursuant to Article 1904 of the North American Free Trade Agreement. Panel review was requested of the 11th administrative review made by the International Trade Administration, respecting Gray Portland Cement and Clinker from Mexico. This determination was published in the **Federal Register** (68 FR 1816) on January 14, 2003. The NAFTA Secretariat has assigned Case Number USA-MEX-2003-1904-01 to this request.

FOR FURTHER INFORMATION CONTACT: Caratina L. Alston, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 482-5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a request for panel review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the government of the United States, the government of Canada and the government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("rules"). These rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686).

A first request for panel review was filed with the United States Section of the NAFTA Secretariat, pursuant to Article 1904 of the Agreement, on January 27, 2003, requesting panel review of the determination described above.

The rules provide that:

(a) A party or interested person may challenge the final determination in whole or in part by filing a complaint in accordance with rule 39 within 30 days after the filing of the first request for panel review (the deadline for filing a complaint is February 26, 2003);

(b) A party, investigating authority or interested person that does not file a complaint but that intends to appear in support of any reviewable portion of the final determination may participate in the panel review by filing a notice of appearance in accordance with rule 40 within 45 days after the filing of the first request for panel review (the deadline for filing a notice of appearance is March 13, 2003); and

(c) The panel review shall be limited to the allegations of error of fact or law, including the jurisdiction of the investigating authority, that are set out in the complaints filed in the panel review and the procedural and substantive defenses raised in the panel review.

Dated: January 28, 2003.

United States Secretary, NAFTA Secretariat.

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit 1413 to Charlotte Ambrose.

SUMMARY: Notice is given that NMFS has issued permit 1413 to Charlotte Ambrose, of the NMFS Protected Resources Division in Santa Rosa, California, that authorizes takes of Endangered Species Act-listed anadromous fish species for research purposes, subject to certain conditions set forth therein.

ADDRESSES: The applications and related documents are available for review in the following offices, by appointment:

For permit 1413: Protected Resources Division, NMFS, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404-6528.

FOR FURTHER INFORMATION CONTACT: For permit 1413: Daniel Logan, Protected Resources Division, NMFS, Santa Rosa, CA, (707) 575-6053, or e-mail: dan.logan@noaa.gov.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice:

The following species and evolutionarily significant units (ESU's)

are covered in this notice: Chinook salmon (*Oncorhynchus tshawytscha*), coho salmon (*O. kisutch*), and steelhead (*O. mykiss*).

Issuance of this permit, as required by the ESA, was based on a finding that such modification was: (1) applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permit; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. This permit was issued in accordance with and is subject to part 222 of title 50 CFR, the NMFS regulations governing listed species permits.

The applicant's proposed activities are in support of a potential ESA violation enforcement action. The applicant proposes field investigations to document the potential harm or injury to ESA-listed salmonids within the California Coastal (CC) Chinook salmon Evolutionarily Significant Unit (ESU), the Southern Oregon/Northern California Coasts (SONCC) coho salmon ESU, and the Northern California (NC) steelhead ESU.

The NMFS SWR believes that because the health and life of the animals are in danger, the issuance of permit 1413 is an urgent action and sufficient to qualify as an emergency situation consistent with CFR 222.303(g).

Permit Issued

Permit 1413 was issued on December 11, 2002.

Charlotte Ambrose is authorized to capture and handle ESA-listed salmonids within the CC Chinook salmon ESU, the SONCC coho salmon ESU, and the NC steelhead ESU.

The expiration date of Permit 1413 is June 30, 2003.

Dated: January 8, 2003.

Phil Williams,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.
