SUPPLEMENTARY INFORMATION:

Background. On October 21, 1977, the Department of the Treasury issued an antidumping finding on imports of pressure sensitive plastic tape from Italy (42 FR 56110). Following five-year reviews by Commerce and the Commission, effective February 17, 1999, Commerce issued a continuation of the antidumping duty order on imports of pressure sensitive plastic tape from Italy (64 FR 51515, September 23, 1999). The Commission is now conducting a second review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions. The following definitions apply to this review:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The Subject Country in this review is Italy.

(3) The Domestic Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its expedited five-year review determination, the Commission found that the appropriate definition of the Domestic Like Product was the same as Commerce's scope: Pressure sensitive plastic tape measuring over 1 $\frac{3}{8}$ inches in width and not exceeding 4 mils in thickness. The Commission did not make a like product determination per se in its original determination.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the

product. In its original determination and its expedited five-year review determination, the Commission defined the Domestic Industry as all producers of pressure sensitive plastic tape.

(5) The Order Date is the date that the antidumping duty order or finding under review became effective. In this review, the Order Date is October 21, 1977.

(6) An Importer is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the review and public service list. Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Former Commission employees who are seeking to appear in Commission five-year reviews are reminded that they are required, pursuant to 19 CFR 201.15, to seek Commission approval if the matter in which they are seeking to appear was pending in any manner or form during their Commission employment. Former employees may seek informal advice from Commission ethics officials concerning their eligibility to appear in five-year reviews. However, any informal consultation will not relieve former employees of the obligation to seek approval to appear from the Commission under its rule 201.15. For ethics advice, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202-205-3088.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list. Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the review. A separate service list will be maintained

Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested

information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determination in the review.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 1978, the Department of the Treasury issued an antidumping finding on imports of prestressed concrete steel wire strand from Japan (43 FR 57599). Following five-year reviews by Commerce and the Commission, effective February 3, 1999, Commerce issued a continuation of the antidumping duty order on imports of prestressed concrete steel wire strand from Japan (64 FR 40554, July 27, 1999). The Commission is now conducting a second review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions

The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is Japan.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its expedited five-year review, the Commission found that the appropriate definition of the Domestic Like Product was the same as Commerce's scope: all steel wire strand, other than alloy steel, not galvanized, which has been stress-relieved and is suitable for use in prestressed concrete. The Commission did not make a like production determination *per se* in its original determination.

(4) The *Domestic Industry* is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determination and its expedited five-year review, the Commission defined the Domestic Industry as producers of prestressed concrete steel wire strand.
