II. Background

The Toxic Substances Control Act, 15 U.S.C. 2609 section 10(g), authorizes EPA and other Federal agencies to

establish and coordinate a system for exchange among Federal, State, and local authorities of research and development results respecting toxic chemical substances and mixtures, including a system to facilitate and promote the development of standard data format and analysis and consistent testing procedures. Through FOSTTA, the Chemical Information and Management Project (CIMP) focuses on EPA's chemical program and works to develop a more coordinated effort involving Federal, State, and Tribal agencies. The Pollution Prevention Project (P2) promotes the prevention ethic across society, helping companies incorporate P2 approaches and techniques and integrating P2 into mainstream environmental activities at both the Federal level and among the States and Tribes. The Tribal Affairs Project (TAP) concentrates on chemical and prevention issues that are most relevant to the Tribes, including lead control and abatement, Tribal traditional/subsistence lifeways, and hazard communications and outreach. FOSTTA's vision is to focus on major policy-level issues of importance to States and Tribes, recruit more senior State and Tribal leaders, increase outreach to all 50 States and some 560 federally recognized Tribes, and vigorously seek ways to engage the States and Tribes in ongoing substantive discussions on complex and oftentimes controversial environmental issues.

In January 2002, the Environmental Council of the States (ECOS), in cooperation with the National Tribal Environmental Council (NTEC), was awarded the new FOSTTA cooperative agreement. ECOS, NTEC, and EPA's Office of Pollution Prevention and Toxics (OPPT) are co-sponsoring the meeting. As part of a cooperative agreement, ECOS facilitates ongoing efforts of the State and Tribal leaders and OPPT to increase understanding and improve collaboration on toxic chemicals and pollution prevention issues, and to continue a dialogue on how Federal environmental programs can best be implemented among the States, Tribes, and EPA.

III. How Can I Request to Participate in this Meeting?

You may submit a request to participate in this meeting to the technical person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered Confidential Business Information. Requests to participate in the meeting, identified by docket ID number OPPT-2004-078, must be received on or before March 18, 2004.

IV. The Meeting

In the interest of time and efficiency, the meetings are structured to provide maximum opportunity for State, Tribal, and EPA participants to discuss items on the predetermined agenda. At the discretion of the chair, an effort will be made to accommodate participation by observers attending the proceedings. The FOSTTA representatives and EPA will collaborate on environmental protection and pollution prevention issues. The tentative agenda items identified by the States and the Tribes follow:

1. Federal budget process (TAP).
2. Pollution prevention activities (TAP).
3. Discussion on HPV challenge data base and demonstration (CIMP).
4. Joint session with TAP/CIMP to increase State and Tribal involvement (CIMP).
5. Connecting P2 with measurable results (P2).
6. P2 in schools (P2).
