SUPPLEMENTARY INFORMATION: The Office of the National Ombudsman of the U.S. Small Business Administration (SBA) has asked each Federal agency to adopt a policy that the agency will not retaliate against small businesses that question or complain about the way the agency does business. On February 11, 2004, the head of our agency, the Commandant of the Coast Guard, approved the following statement of Coast Guard policy:

If you question or lodge a complaint regarding a Coast Guard policy or action, to us or to anyone else, or if you seek outside help in dealing with a Coast Guard policy or action, the Coast Guard will not retaliate against you in any fashion. The Coast Guard wants you to be able to comment, question, or lodge a complaint about our policies or actions without fear that we will retaliate or try to discourage future questions or complaints. If you think the Coast Guard has broken this promise, we will investigate, take appropriate action, and make sure that mistakes are not repeated. You may comment, ask questions, or file a complaint about Coast Guard policies or actions by contacting your local Coast Guard office, or you can also contact the Small Business Administration Office of the National Ombudsman at 888-REG-FAIR (734-3247), fax: 202-481-5719, email: ombudsman@sba.gov.

Small businesses generally are independently owned and operated and are not dominant in their field. If you need help determining whether or not your business qualifies as a "small business", contact the SBA's Office of the National Ombudsman using the information given in the preceding paragraph.

Rear Admiral, U.S. Coast Guard, Judge
Advocate General.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to a collection of information, unless it displays a valid OMB control number. Therefore, in preparation for submission of clearance of the following information collection, TSA solicits comments in order to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Description of Data Collection

TSA plans to conduct a pilot technology program in 2004, in a limited number of airports, to test and evaluate the merits of the Registered Traveler (RT) concept. This pilot program (RT Pilot) is designed to positively identify qualified, known travelers via advanced identification technologies for the purposes of expediting those passengers' travel experience at the airport security checkpoints and thereby enabling TSA to improve the allocation of its limited security resources.

TSA will collect and retain a minimal amount of personal information from individuals who volunteer to participate in the RT Pilot that will be used to verify an applicant's claimed identity, complete a background check, and, if applicable, issue an identification token prior to enrollment in the program. In addition, TSA will administer two instruments to measure customer satisfaction and to collect data on the effectiveness of the pilot technologies and business processes. The first instrument will be a survey of a representative percentage of the RT Pilot participants. The second instrument will be an interview conducted with the key stakeholders at sites participating in the RT Pilot. All surveys and interviews will be voluntary and anonymous.

The collection of information from individuals who volunteer to participate in the RT Pilot will be gathered electronically. This not only fulfills the requirements of the Government Paperwork Elimination Act, but it also facilitates the collection and processing of the data and provides an efficient means of retrieving credential information. Due to operational constraints and practical considerations, the RT customer service surveys and interviews will be conducted manually. RT surveys will be distributed at airports and the respondents may freely choose not to participate. The respondents who choose to participate in the surveys will be asked to return the completed survey in less than 30 days from the time of receipt; they may choose not to comply with this request. Key stakeholders involved in the RT Pilot will be asked to designate representative(s) to participate in short, individual interview sessions intended to evaluate the effectiveness of the RT Pilot from the stakeholders' perspective and to gather any additional feedback the stakeholder may wish to share. Stakeholders who choose to participate in the interview sessions will be asked to schedule an interview with TSA no later than 30 days after the completion

of the RT Pilot. Interview sessions will be conducted on a one-on-one basis at mutually agreed upon locations. Stakeholders may choose not to participate in the interview sessions.

Burden Estimates of Data Collection

For the initial RT Pilot program volunteer enrollments, we expect a total of 5,000 respondents and, based on an estimate of a 10-minute burden per respondent, a maximum total burden program-wide of 833 hours. For the survey submissions, we expect a total of 750 respondents and, based on an estimate of a 15-minute burden per respondent, a maximum total burden program-wide of 187.5 hours. For the stakeholder interview sessions, we expect approximately 20 stakeholder representatives to participate and, based on an estimate of a 45-minute burden per interview, a maximum total burden of 15 hours.

Issued in Arlington, Virginia, on March 12, 2004.

Susan T. Tracey,

Chief Administrative Officer.
