

(October–November) 2003 and Summer (June–August) 2004.

The pilot study data will not be used to evaluate program performance or child outcomes, but to test the feasibility of different evaluation designs that could be used during an eventual national evaluation of MSHS programs. A primary issue to be tested is whether, or under what conditions, it is possible to assess program factors and child and family outcomes in different program sites among children and families who routinely migrate through

multiple sites in a relatively unpredictable manner throughout a given growing season. Another issue to test is whether standardized measures of children's competencies, and parent/teacher reports of these competencies, are appropriate for this largely Spanish-speaking sample, many of whom speak unique non-Spanish/non-English languages, and whose cultural backgrounds are also unique. This pilot study is also designed to determine how children and families can be tracked

across these multiple sites, and determine the kinds and intensities of MSHS program services they obtain, including such aspects as children's curriculum and care, parent services, and coordination with community resources and services.

Respondents: Parents, Children, MSHS Teachers, MSHS Program Staff.

Annual Burden Estimates: Estimated Response Burden for Respondents to the Migrant and Seasonal Head Start Research Design Development Project.

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
MSHS Parent Interview I	150	2	.25	75.00
MSHS Parent Interview II	75	2	1.5	225.0
MSHS Teacher Interview I	6	1	.50	3.0
MSHS Teacher Interview II	6	19	.50	57.0
MSHS Child Assessment (3–5 years)	45	2	.50	45.0
MSHS Child Assessment (0–3 years)	12	2	.33	7.92
MSHS Program Staff Interviews	24	1	.50	12.0

Estimated Total Annual Burden Hours: 424.92.

SUPPLEMENTARY INFORMATION: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. E-mail address: rsargis@cf.hhs.gov.

OMB Comment:

OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, 725 17th Street, NW., Washington, DC 20503, Attn: Desk Officer for ACF, E-mail address: lauren_wittenberg@omb.eop.gov.

Dated: January 14, 2004.

Robert Sargis,

Reports Clearance Officer.

National Institutes of Health

National Cancer Institute; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Cancer Institute Special Emphasis Panel; Spore Brain Cancer.

Date: February 9–10, 2004.

Time: 8 a.m. to 5 p.m.

Agenda: To review and evaluate grant applications and/or proposals.

Place: Sea Lodge on La Jolla Shores, 8110 Camino Del Oro, La Jolla, CA 92037.

Contact Person: Brian E. Wojcik, PhD, Scientific Review Administrator, Grants Review Branch, Division of Extramural Activities, National Cancer Institute, 6116 Executive Boulevard, Room 8019; Bethesda, MD 20892, (301) 402–2785.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under

OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

National Evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program, Phase Four—New— SAMHSA's Center for Mental Health Services (CMHS) is conducting Phase IV of this national evaluation project among grantees newly funded in FY 2002 and 2003. The national evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program will collect data on child mental health outcomes, family life, and service system development and performance.

Data will be collected on 32 service systems, and approximately 7,868 children and families. Data collection for this evaluation will be conducted in each site over a five-year period. The core of service system data will be collected every 18 months throughout the 5-year evaluation period, with a sustainability survey conducted in selected years. Service delivery and system variables of interest include the following: maturity of system of care development, adherence to the system of care program model, and client service experience. The length of time that individual families will participate in the study ranges from 18 to 36 months depending on when they enter the evaluation.

Child and family outcomes of interest will be collected at intake and during subsequent follow-up sessions at six-month intervals. The outcome measures include the following: child symptomatology and functioning, family functioning, material resources, and caregiver strain. In addition, an evidence-based treatment study will examine the relative impact of evidence-based treatments focused on substance use prevention within two systems of care. Time-limited studies addressing the cultural competence of services and the role of primary care providers in systems of care will be conducted at selected points during the evaluation period. Internet-based technology will be used for collecting data via Web-based surveys and for data entry and management. The average annual respondent burden is estimated below.
