Marshall, Jr., Compliance Assessment and Media Programs Division, 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-7021; fax number: (202) 564-0050; e-mail address: marshall.robert@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 19, 2003, EPA published a notice in the **Federal Register** (68 FR 27059), seeking comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID Number OECA-2003-0032, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center Docket is: (202) 566-1752. An electronic

version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or to view public comments, to access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. When in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comment, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: NESHAP for Wood Furniture Manufacturing Operations (40 CFR part 63, subpart JJ).

Abstract: Respondents to this information collection request are the owners and operators of both new and existing wood furniture manufacturing operations that are sources of hazardous air pollutants. Major sources are required to perform recordkeeping activities and submit both initial and semiannual/quarterly compliance reports. Incidental wood furniture manufacturers and area sources must keep records to show that they are not major sources. The information is used to determine that all sources subject to the rule are complying with the standards. The information to be collected is mandatory under the rule.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15,

and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 45 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wood Furniture Manufacturers.

Estimated Number of Respondents: 750.

Frequency of Response:

Semiannually, quarterly and initially.

Estimated Total Annual Hour Burden: 47,190 hours.

Estimated Total Annual Costs:

\$3,003,109, which includes zero annualized capital/startup costs, \$18,000 annual O&M costs, and \$2,985,109 respondents' labor costs.

Changes in the Estimates: There is a decrease of 44,881 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is a result of a more accurate characterization of the sources affected by the standard.

Dated: January 22, 2004.

Acting Director, Collection Strategies Division.

Title: NSPS for Magnetic Tape Coating Facilities (40 CFR Part 60, Subpart SSS)

Abstract: The New Source Performance Standards (NSPS) for Magnetic Tape Coating Facilities were proposed on January 22, 1986, and promulgated on October 3, 1988. These standards apply to each coating operation and each piece of coating mix preparation equipment for which construction, modification or reconstruction commenced after January 22, 1986. Volatile organic compounds (VOC) are the pollutants regulated under the standards.

Owners or operators of the affected facilities described must make the following one-time-only reports: Notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility which may increase the regulated

pollutant emission rate; notification of the date of the initial performance test; and the results of the initial performance test.

Owners or operators also are required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility. These notifications, reports and records are required, in general, of all sources subject to NSPS.

Monitoring requirements specific to these magnetic tape operations consist mainly of VOC measurements, including monthly records of VOC content of all coatings applied, total amount and percent VOC recovered, and the total amount of coating applied. In addition, facilities utilizing less solvent annually than the applicable cutoff shall make semiannual estimates of projected annual amount of solvent use and maintain records of actual solvent use.

Each owner or operator of an affected magnetic tape coating operation shall install, calibrate, maintain, and operate a monitoring device that continuously indicates and records the concentration level of organic compounds in the outlet gas stream. Certain facilities will also be required to continuously measure and record either the combustion temperature of the incinerator (for those facilities controlled by a thermal incinerator) or the condenser exhaust temperature (for those facilities controlled by a condensation system).

Responses to the collection of information are mandatory (40 CFR Part 60, Subpart SSS, NSPS for Magnetic Tape Coating Facilities). The required information has been determined not to be confidential. However, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 88 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions;

develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of magnetic tape coating facilities.

Estimated Number of Respondents: 6.

Frequency of Response: Initial, quarterly, semiannually.

Estimated Total Annual Hour Burden: 2,017 hours.

Estimated Total Cost: \$216,000, which includes \$34,000 annualized capital/startup costs, \$53,000 annual O&M costs and \$129,000 labor costs.

Changes in the Estimates: There is a decrease of 1,874 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to a reduction in the number of sources affected by the standard.

Dated: January 22, 2004.

Title: Voluntary Cover Sheet for TSCA Submissions.

Abstract: The Toxic Substances Control Act (TSCA) requires industry to submit information and studies for existing chemical substances under sections 4, 6, and 8. Under normal reporting conditions, EPA receives thousands of submissions each year; each submission represents on average three studies. In addition, specific data call-ins can be imposed on industry.

As a follow-up to industry experience with a 1994 TSCA data call-in, the Chemical Manufacturers Association (CMA, now known as the American Chemistry Council (ACC)), the Specialty Organics Chemical Manufacturers Association (SOCMA), and the Chemical Industry Data Exchange (CIDX), in cooperation with EPA, took an interest in pursuing electronic transfer of TSCA summary data and of full submissions to EPA. In particular, ACC developed a standardized cover sheet for voluntary use by industry as a first step to an electronic future and to begin familiarizing companies with standard requirements and concepts of electronic transfer.

This form is designed for voluntary use as a cover sheet for submissions of information under TSCA sections 4, 8(d) and 8(e). The cover sheet facilitates submission of information by displaying certain basic data elements, permitting
