Specific public comments are requested as to:

1. Whether the collection of information is necessary for the proper performance of the functions on the bureaus, including whether the information will have practical utility;

The accuracy of the bureau's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

3. The quality, utility, and clarity of the information to be collected; and

4. How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

*Title:* Public perceptions of Bats in Fort Collins, Colorado.

*OMB Approval No:* New collection.

*Abstract:* The primary objective of this information collection is to investigate public perceptions, knowledge, and awareness of bats and how this could influence potential transmission of disease (*i.e.*, from bats to bats, bats to pets, bat to humans). A random sample of Fort Collins, Colorado residents and a sample of identified residents known to have had an encounter with a bat will be asked about these bat-related issues via a questionnaire. This information is a vital component for managing bats and developing effective communications protocols regarding bat disease and ecology. This is collaborative effort involving scientists from Colorado State University (CSU), the U.S. Geological Survey (USGS), and Centers for Disease Control and Prevention (CDC).

*Bureau Form No:* None.

*Frequency:* One time.

*Description of Respondents:* Residents of Fort Collins, Colorado.

*Estimated Completion Time:* 15 minutes per respondent (approximate).

*Number of Respondents:* 1000.

*Burden hours:* 250 hours.

*For Additional Information please contact:* Natalie Sexton, (970) 226-9313, or e-mail [Natalie\\_sexton@usgs.gov](mailto:Natalie_sexton@usgs.gov).

*Bureau clearance officer:* John Cordyack (703) 648-7313.
