

priorities for which they have also submitted applications. However, if the Department decides to select for funding an equal number of applications in each group, this may result in different cut-off points for fundable applications in each group.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118. In addition, to satisfy the requirements of the priority in this notice, you must submit annual data on each scholar who receives grant support through this program.

4. *Performance Measures:* Under the Government Performance and Results Act (GPRA), the Department has established a set of performance measures that are designed to yield information on the effectiveness of the Personnel Preparation program. These measures include the extent to which scholars are successfully completing their program and the extent to which they are employed in the area(s) trained upon program completion.

If funded, applicants will be required to collect and report data on grant-supported students through the PPD Web site at <http://www.oespppd.org> (see paragraph (g) under the *Absolute Priority* section of this notice).

Beyond the performance measures specifically described in this notice, the Department is also currently developing measures that will be designed to yield

information on various aspects of program quality (e.g., the extent to which the curricula of training programs funded under this competition reflect the current knowledge base on effective practices; and the extent to which program graduates maintain employment for three or more years in the area(s) for which they were trained). Grantees will be asked to participate in assessing and providing information on program quality.

We will notify grantees of the performance measures once they are developed.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with infants or toddlers with disabilities, or children with disabilities; and (2) ensure that those personnel have the skills and knowledge—derived from practices that have been determined through research and experience to be successful—that are needed to serve those children.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute (see sections 662(d) and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2005 this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Preparation of Leadership Personnel

This priority supports projects that train personnel at the doctoral or post-

doctoral level in early intervention, special education or related services and at the advanced level (masters and specialists) in special education administration. In order to be eligible under this priority, programs must provide training and support for scholars to complete, within the performance period of the grant, a doctoral degree in early intervention, special education or related services or an advanced degree in special education administration.

Note: Training that leads to a Doctor of Audiology (D Aud) degree is not included as part of this priority.

The Preparation of Leadership Personnel Priority is limited to preservice doctoral and post-doctoral preparation of professional personnel in special education, related services and early intervention services for children with disabilities and graduate level training in special education administration and supervision. Therefore, only the following types of programs of study will meet the requirements of the priority:

1. A major in special education, related services or early intervention at the doctoral or post-doctoral level; and
2. Training at the advanced graduate level (masters and specialists programs) in special education administration and supervision.

Projects funded under this absolute priority must—

(a) Demonstrate in the narrative section of the application under “Quality of Project Services” how—

(1) The program prepares personnel to address the specialized needs of children with disabilities from diverse cultural and language backgrounds by—

(i) Identifying the competencies needed for leadership personnel to understand and work with culturally and linguistically diverse populations (the competencies identified should reflect the current knowledge base); and

(ii) Infusing those competencies into early intervention, special education, and related services training programs.

(2) All relevant coursework for the proposed program reflects current research and pedagogy on—

(i) Participation and achievement in the general education curriculum and improved outcomes for children with disabilities; or

(ii) The provision of coordinated services in natural environments to improve outcomes for infants and toddlers with disabilities and their families.

(3) The program offers integrated training and practice opportunities that will enhance the collaborative skills of

all personnel who share responsibility for providing effective services for children with disabilities.

(4) For programs that train personnel in early intervention, special education or related services, the program ensures that scholars are knowledgeable about (i) the provisions of the No Child Left Behind Act of 2001 (NCLB) that relate to students with disabilities, (ii) the IDEA and NCLB requirement that teachers be highly qualified, and (iii) the need to foster collaboration between regular and special education teachers.

(5) The proposed training program is aligned with State learning standards for children, if appropriate;

(b) Submit annual data on each scholar who receives grant support. Projects funded under this priority must submit this scholar data electronically within 60 days after the end of each grant budget year. Applicants are encouraged to visit the Personnel Prep Data (PPD) Web site at <http://www.osepppd.org> for further information. This data collection is in addition to and does not supplant the annual grant performance report required of each grantee for continuation funding (see 34 CFR 75.590);

(c) Budget for a two-day Project Director’s meeting in Washington, DC, during each year of the project;

(d) If the project maintains a Web site, include relevant information and documents in a form that meets a government or industry-recognized standard for accessibility;

(e) Provide a detailed description of the program, including the sequence of the courses offered in the program;

(f) Include in the application narrative under “Quality of Project Evaluation”, a clear, effective plan for evaluating the extent to which graduates of the training program have the knowledge and skills necessary to provide research-based instruction and services that result in improved outcomes for children with disabilities;

(g) Communicate student evaluation results to the Office of Special Education Programs (OSEP) in required annual performance reports for continuation funding and the project final performance report;

(h) Certify that all scholars will be recruited into the program with the intention of graduating from the program during the program performance period; and

(i) Certify that the institution will not require scholars recruited into the program to work as a condition of receiving a scholarship, e.g., as graduate assistants, unless the work is required to complete their training program.

Statutory and Other Requirements: To be considered for an award, an applicant must also satisfy the following requirements authorized under sections 662(e) through (h) of IDEA—

(a) Demonstrate that the activities described in the application will address needs identified by the State or States the applicant proposes to serve and that the State or States intend to accept successful completion of the proposed personnel preparation program as meeting State personnel standards or other requirements in State law or regulation for serving children with disabilities or serving infants and toddlers with disabilities (see sections 662(e)(2)(A) and 662(e)(3) of IDEA). Letters from the State or States that the project proposes to serve could be one method for addressing this requirement;

(b) Demonstrate that the applicant and one or more State educational agencies—or, if appropriate, State appointed lead agencies responsible for providing early intervention services—or local educational agencies will cooperate in carrying out and monitoring the proposed project (see section 662(e)(2)(B) of IDEA);

(c) Meet State and professionally recognized standards for the preparation of leadership personnel in special education, related services, or early intervention fields (see section 662(f)(2) of IDEA);

(d) If the program is addressing national or regional needs, demonstrate the existence of the needs through appropriate research data;

(e) Provide an assurance that the applicant will ensure that individuals who receive financial assistance under the proposed project agree to subsequently work in the appropriate field, for a period of 2 years for every year for which the scholarship was received, or repay all or part of the amount of the scholarship, in accordance with section 662(h)(1) of IDEA and the *Additional Requirements* section of this notice. Applicants must describe how they will inform scholarship recipients of this service obligation requirement; and

(f) As authorized under section 662(g) of IDEA, applicants must designate at least 65 percent of the total requested budget for scholarship support or provide justification for any designation less than 65 percent. Sufficient justification for proposing less than 65 percent of the budget for scholarship support would include expansion of a program, or the addition of a new area of emphasis. Examples include:

- Long distance training programs that may require Web Masters or adjunct professors or mentors in rural areas.

- A project that is expanding or adding a new emphasis area to the program may need additional faculty or other resources such as expert consultants, additional training supplies, or equipment that would enhance the program.

Projects that are funded to develop, expand, or to add a new area of emphasis to special education or related services programs must provide information on how these new areas will be sustained once Federal funding ends.

Additional Requirements: Specific provisions contained in the regulations for this program, which are in 34 CFR part 304, no longer apply because they have been superseded by requirements in IDEA, as recently reauthorized and amended by the Individuals with Disabilities Education Improvement Act of 2004. Accordingly, for purposes of this competition, the following requirements will apply in lieu of the regulations in 34 CFR part 304.

Note: The Secretary will be issuing a notice of proposed rulemaking to amend part 304 to implement these recent changes in IDEA. The Secretary does not expect the final regulations to be substantially different from the requirements in this *Additional Requirements* section. However, the competition announced in this notice will be governed solely by the requirements in this notice.

Sec. A. Purpose

Individuals who receive scholarship assistance from projects funded under the Special Education—Personnel Development to Improve Services and Results for Children with Disabilities program are required to complete a service obligation, or repay all or part of the costs of such assistance, in accordance with section 662(h) of IDEA and the requirements set forth in this *Additional Requirements* section of this notice.

V. Application Review Information

Selection Criteria: The selection criteria for this competition are from 34 CFR 75.210 of EDGAR and are listed in the application package.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package

and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118. In addition, to satisfy the requirements of the priority in this notice, you must submit annual data on each scholar who receives grant support through this program.

4. *Performance Measures:* Under the Government Performance and Results Act (GPRA), the Department has established a set of performance measures that are designed to yield information on the effectiveness of the Personnel Preparation program. These measures include the extent to which scholars are successfully completing their program and the extent to which they are employed in the area(s) trained upon program completion.

If funded, applicants will be required to collect and report data on grant-supported scholars through the PPD Web site at <http://www.oespppd.org> (see paragraph (b) under the *Absolute Priority* section of this notice).

Beyond the performance measures specifically described in this notice, the Department is also currently developing measures that will be designed to yield information on various aspects of program quality (e.g., the extent to which the curricula of training programs funded under this competition reflect the current knowledge base on effective practices; and the extent to which program graduates maintain employment for three or more years in the area(s) for which they were trained). Grantees will be asked to participate in assessing and providing information on program quality.

We will notify grantees of the performance measures once they are developed.
