Bureau of Reclamation

Review of Existing Coordinated Long-Range Operating Criteria for Colorado River Reservoirs (Operating Criteria)

AGENCY: Bureau of Reclamation (Reclamation), Interior.

ACTION: Notice of final decision regarding the operating criteria.

SUMMARY: The purpose of this action is to provide public notice that the Secretary of the Interior (Secretary) has made a number of limited modifications to the text of the Operating Criteria developed pursuant to section 602 of the Colorado River Basin Project Act of 1968. The bases for the changes are: (1) Specific change in Federal law applicable to the Operating Criteria, (2) language in the current text of the Operating Criteria that is outdated, and (3) specific modifications to Article IV(b) of the Operating Criteria that reflect actual operating experience. The review of the Operating Criteria has been conducted through a public review process, including consultation with the seven Colorado River Basin States, tribal representatives, and interested parties and stakeholders.

DATES: *Effective Date:* March 21, 2005.

SUPPLEMENTARY INFORMATION: The public review process began with a **Federal Register** notice published on January 15, 2002, announcing the sixth

review of the Operating Criteria and inviting comments regarding whether the Operating Criteria should be modified, and if so, how they should be modified (67 FR 1986). The January 15, 2002, notice provided for a comment period that ended on March 18, 2002. On March 6, 2002, a second notice was published in the **Federal Register** extending the comment period to March 29, 2002, and inviting public feedback on whether or not Reclamation should conduct a public meeting to solicit comments as part of the sixth review of the Operating Criteria (67 FR 10225). A letter was then sent to all interested parties, tribes, and stakeholders on March 7, 2002, that included copies of both **Federal Register** notices and the Operating Criteria.

On June 27, 2002, a Fact Sheet providing information on the Operating Criteria, scope of the review process, public participation, timeline for the review process, and contact information was sent to all interested parties and stakeholders. In addition to the Fact Sheet, Reclamation set up a Web site (<http://www.usbr.gov/lc/region/g4000/lroc>) for the sixth review of the Operating Criteria that contained further information on the review, copies of all comment letters received, and links to technical documents Reclamation felt would be useful during the review process.

Detailed written comments were received from 16 interested parties providing Reclamation with numerous issues, comments, and concerns regarding possible changes to the Operating Criteria. The names of the parties that provided comments, as well as the corresponding number assigned by Reclamation to the comment letter, are as follows:

1. Western Area Power Administration, Phoenix, Arizona.
2. Quechan Indian Tribe.
3. Metropolitan Water District of Southern California.

8. Colorado River Board of California.
9. Western Area Power Administration, Salt Lake City, Utah.
10. Upper Colorado River Commission.

11. Irrigation & Electrical Districts Association of Arizona.

14. Office of the Attorney General, Water & Natural Resources Division, State of Wyoming.

15. International Boundary and Water Commission, United States and Mexico.

16. State of Utah, Department of Natural Resources, Division of Water Resources.

The comment letters were reviewed for identification of and analysis of the issues. Responses to the comment letters, as well as the corresponding number of the party that made the comment, are provided under the *Synopsis of Comments and Responses* section of this notice.

As required by Federal law, formal consultation with the seven Basin States, interested parties and stakeholders, as well as government-to-government consultation with tribal representatives, was conducted during this review of the Operating Criteria. The January 15, 2002, **Federal Register** notice stated that open public meetings would be conducted as part of this review, and in the March 6, 2002, **Federal Register** notice, Reclamation asked for comments on whether or not a public meeting should be held. At the end of the comment period (March 29, 2002), several of those who provided comments stated that a public meeting to solicit comments on the need to revise the Operating Criteria was not needed. Accordingly, Reclamation did not conduct a public meeting at that point in the review process.

On November 3, 2004, a Notice of Proposed Decision Regarding the Operating Criteria and Announcement of Public Consultation Meeting was published in the **Federal Register** (69 FR 64096). The Notice identified the proposed changes to the Operating Criteria as Reclamation's response to comments received and invited public input on those changes. The notice announced that a public consultation meeting would be held in Henderson, Nevada, on November 19, 2004, and provided for a comment period that ended on December 6, 2004. On November 4, 2004, a letter was sent to all interested parties, tribes, and stakeholders containing a copy of the November 3, 2004, **Federal Register** notice.

On November 19, 2004, a public consultation meeting was conducted to (1) Discuss the proposed changes to the Operating Criteria as Reclamation's response to comments received, (2)
