DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Special Census Program.

Form Number(s): SC–1, SC–1SUPP, SC–1 (Phone/WYC), SC–2, SC–116, SC–351, SC–920, SC–921(HU), SC–921(SP).

Agency Approval Number: 0607–0368.

Type of Request: Extension of a currently approved collection.

Burden: 46,377 hours.

Number of Respondents: 709,655.

Avg Hours Per Response: 4 minutes overall average.

Needs and Uses: Governmental units requiring current population statistics between decennial censuses request and pay for special censuses. Many states distribute funds based on current population statistics. In addition, special census data are used by the local jurisdictions to plan new schools, transportation systems, housing programs, and water treatment facilities.

The Special Census Program operates as a generic OMB clearance, including a library of forms and the operational procedures that will be used for the many special censuses we anticipate conducting this decade. The Census Bureau will establish a reimbursable agreement with a variety of potential special census customers that are unknown at this time. We will submit for OMB's review and approval, under cover of change worksheet, any special-purpose questions requested by customers to be added to special census questionnaires.

Local jurisdictions use special census data to apply for available funds from both the state and Federal government. Many states distribute these funds based on current population statistics. This fact, along with local population shifts or annexations of territory, prompts local officials to request special censuses. In addition, special census data are used by the local jurisdictions to plan new schools, transportation systems, housing programs, water treatment facilities, etc. Some areas feel that additional data are required for proper planning and others must have the additional data to qualify for some sources of funding. For these reasons, local officials request special purpose questions. The Census Bureau also uses special census data as part of its local

population estimates calculation and to update the Census Bureau's Master Address File (MAF) and Topographically Integrated Geographic Encoding and Referencing (TIGER) System.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 196.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Census Employment Inquiry.

Form Number(s): BC-170A, BC-170B, BC-170D.

Agency Approval Number: 0607-0139.

Type of Request: Revision of a currently approved collection.

Burden: 8,500 hours.

Number of Respondents: 34,000.

Avg Hours Per Response: 15 minutes.

Needs and Uses: The U.S. Census Bureau requests continued OMB approval for the BC-170, Census Employment Inquiry. We are also requesting minor modifications to the data collected. The BC-170 is used to collect information such as personal data and work experience from job applicants. The BC-170 is completed by job applicants before or at the time they are tested. Selecting officials review the information shown on the form to evaluate an applicant's eligibility for employment and to determine the best qualified applicants to fill Census jobs.

The BC-170 is used throughout the census and intercensal periods for the special census, pretests, and dress rehearsals for short-term time limited appointments. Applicants completing the form for a census related position are applying for temporary jobs in office and field positions (clerks, enumerators, crew leaders, supervisors). In addition, as an option to the OF-612, Optional Application for Federal Employment, the BC-170 may be used when applying for temporary/permanent office and field positions (clerks, field representatives, supervisors) on a recurring survey in one of the Census Bureau's 12 Regional Offices (ROs) throughout the United States.

During the decennial census, the BC-170 is intended to expedite hiring and selection in situations requiring large numbers of temporary employees for assignments of a limited duration. The use of this form is limited to only situations which require the establishment of a temporary office and/or involve special, one-time or recurring survey operations at one of the ROs. The form has been demonstrated to meet our recruitment needs for temporary workers and requires significantly less burden than the Office of Personnel Management (OPM) Optional Forms that are available for use by the public when applying for Federal positions. In addition, before the 2010 decennial census, we expect to recruit approximately 102,000 applicants for census jobs (*i.e.*, one-time censuses, special censuses and decennial pretests and dress rehearsals), which would equate to a significant reduction in the required paperwork and public burden.

The form has been slightly modified for specific usage by each of the three
