Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

(These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Pub. L. 104-13, § 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR Part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or

renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(I)-(iv); 5 CFR 1320.8(d)(1)(I)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of the currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: Supplemental Qualifications Statement for Railroad Safety Inspector Applicants.

Form Number: FRA-F-120.

OMB Control Number: 2130-0517.

Abstract: The Supplemental Qualifications Statement for Railroad Safety Inspector Applicants is an information collection instrument used by FRA to gather additional background data so that FRA can evaluate the qualifications of applicants for the position of Railroad Safety Inspector. The questions cover a wide range of general and specialized skills, abilities, and knowledge of the five types of railroad safety inspector positions.

Affected Public: Individuals or Households.

Frequency of Submission: On occasion.

Estimated Number of Respondents: 2,000 Applicants.

Estimated Average Burden per Respondent: 3 hours.

Estimated Total Annual Burden: 6,000 hours.

Status: Extension of a currently approved collection.

Title: Railroad Worker Protection (49 CFR 214).

OMB Control Number: 2130-0539.

Abstract: This rule establishes regulations governing the protection of railroad employees working on or near railroad tracks. The regulation requires that each railroad devise and adopt a program of on-track safety to provide employees working along the railroad with protection from the hazards of being struck by a train or other on-track equipment. Elements of this on-track safety program include an on-track safety manual; a clear delineation of employers' responsibilities, as well as employees' rights and responsibilities thereto; well-defined procedures for communication and protection; and annual on-track safety training. The program adopted by each railroad is subject to review and approval by FRA. Part 214 regulations have been deemed different enough from the Part 213 regulations as to require a separate and distinct reporting form (new Form FRA F 6180.119). Regardless of discipline, the FRA inspector will complete the new Roadway Workplace Safety Violation Report Form (FRA F 6180.119) when recommending civil penalties for Part 214 infractions.

Affected Public: Railroads.

Form Number: FRA F 6180.119.

Frequency of Submission: On occasion.

Estimated Number of Respondents: 579 railroads.

Estimated Total Annual Burden: 589,139 hours.

Status: Extension of a currently approved collection.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501-3520.

Issued in Washington, DC on April 6, 2005.

D.J. Stadlter,

Director, Office of Budget, Federal Railroad Administration.
