Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Understanding the Establishment and Maintenance of Pioneering Transition Programs—New

SAMHSA's Center for Mental Health Services will collect information about the establishment and maintenance of programs funded in part by state child mental health agencies that prepare youth from these agencies for adult functioning, and can provide these services continuously beyond the upper age limit of state child mental health eligibility. Many of the youth served in state child mental health systems cannot access state adult mental health services; thus, the ability to provide continuing transition support services to this population throughout the period of transition, roughly to the age of 25, is critical to the likelihood of adult success.

The small number of pioneering programs in the country that have successfully negotiated the system to achieve this status have much to teach those trying to develop better transition

support systems. In particular, the history of how the program was established, what it takes to maintain the program, the challenges the programs have faced in providing transition supports and their solutions to these problems can help others, and prevent needless duplication of trial and error.

This project will begin the development of guidelines for others attempting to bridge this important service gap through discovering shared and unique approaches to establishing and maintaining pioneering transition programs, and the challenges that they face in providing services to this grossly underserved population.

Nine such programs have been identified. Another four programs, that have not been maintained, will also be identified, yielding a total of 13 programs that will be examined. Examination will occur primarily through telephone interview of multiple stakeholders per program. Program information will also be requested electronically. Stakeholders from each program will consist of the following: 2 State-level child mental health administrators, 2 program-level administrators/staff, and up to an additional 3 key stakeholders that are identified during the process of interviewing the first 4 stakeholders. Stakeholders will be asked about 3 issues: (1) How the program was established; (2) efforts to keep the program open and funded; and (3) factors that facilitated or inhibited its opening or maintenance. Sufficient detail will be sought to determine the unique efforts needed for these kinds of programs, as opposed to common efforts made to establish any new program. Two questionnaires will be used to obtain this information, one for program administrators or staff and the other for other stakeholders.

The following table summarizes the estimated response burden for this project.

Questionnaire	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden
Staff	52	1	1	52
Non-Staff	26	1	1.5	39
Total	78	78	91

Written comments and recommendations concerning the proposed information collection should be sent by March 14, 2005, to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management

and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service,

respondents are encouraged to submit comments by fax to: 202-395-6974.
