Proposed Action

On June 25, 2004, the Coast Guard and MARAD published a notice of intent to prepare an environmental impact statement (EIS) for the proposed Compass Port deepwater port in the **Federal Register** (69 FR 35657). The proposed action requiring environmental review is the Federal licensing of the proposed deepwater port described in "Summary of the Application" below, which is reprinted from previous **Federal Register** notices in this docket.

Alternatives to the Proposed Action

The alternatives to licensing are: (1) Licensing with conditions (including conditions designed to mitigate environmental impact), and (2) denying the application, which for purposes of environmental review is the "no-action" alternative. These alternatives are more fully discussed in the DEIS.

Summary of the Application

The application plan calls for the proposed deepwater port to be located in the Outer Continental Shelf (OCS) and Mississippi Sound areas of the Gulf of Mexico, approximately 11 miles off Dauphin Island, AL, in lease block Mobile 910. Compass Port would serve as a liquefied natural gas (LNG) receiving, storage, and regasification facility, located in approximately 70 feet of water depth. It will incorporate docking facilities, unloading facilities, two LNG storage tanks, regasification facilities, an offshore pipeline, and support facilities.

Compass Port proposes the installation of approximately 26.8 miles of 36-inch diameter natural gas transmission pipeline on the OCS. In addition, approximately 4.9 miles of 36-inch diameter pipeline would be installed onshore to connect the proposed deepwater port and offshore pipeline with existing gas distribution pipelines near Coden, AL.

The deepwater port facility would consist of two concrete gravity-based structures (GBS) that would contain the LNG storage tanks, LNG carrier berthing provisions, LNG unloading arms, low and high pressure pumps, vaporizers, metering, utility systems, general facilities and accommodations. The terminal would be able to receive LNG carriers up to 255,000 cubic meters cargo capacity. Liquefied natural gas carrier arrival frequency would be planned to match specified terminal gas delivery rates. Liquefied natural gas

would be stored in two integral full-containment tanks, each with a capacity of 150,000 cubic meters, and a combined capacity of 300,000 cubic meters of LNG.

The regasification process would consist of lifting the LNG from the storage tanks, pumping the LNG to pipeline pressure, vaporizing across heat exchanging equipment, and sending out through the pipeline to custody transfer metering for ultimate delivery to downstream interstate pipeline capacity. No gas conditioning is required since the incoming LNG will meet the gas quality specifications of the downstream pipelines.

The deepwater port would be designed to handle a nominal capacity of 7.5 million metric tons per annum of LNG. This is equivalent to an average delivery of approximately 1.02 billion cubic feet per day (bcfd) of pipeline quality gas.

In the Notice of Application, the applicant had identified five locations as possible fabrication sites for the concrete gravity-based structures which would be used to contain the LNG storage tanks.

As a result of additional information during the development of this DEIS, three locations have been eliminated from further study. The two proposed locations for the fabrication sites are:

- Big Bend Site, Freeport, TX; and
- Kiewit Construction Site, Ingleside, TX.

Federal Emergency Management Agency

[FEMA-1575-DR]

Hawaii; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major

disaster for the State of Hawaii (FEMA-1575-DR), dated February 1, 2005, and related determinations.

EFFECTIVE DATE: February 1, 2005.

FOR FURTHER INFORMATION CONTACT: Magda Ruiz, Recovery Division, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2705.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated February 1, 2005, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206 (the Stafford Act), as follows:

I have determined that the damage in certain areas of the State of Hawaii, resulting from severe storms and flash flooding on October 30, 2004, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206 (the Stafford Act). Therefore, I declare that such a major disaster exists in the State of Hawaii.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance and Hazard Mitigation in the designated area, and any other forms of assistance under the Stafford Act you may deem appropriate. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will be limited to 75 percent of the total eligible costs. If Other Needs Assistance under Section 408 of the Stafford Act is later requested and warranted, Federal funding under that program will also be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Under Secretary for Emergency Preparedness and Response, Department of Homeland Security, under Executive Order 12148, as amended, Michael Karl, of FEMA is appointed to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following area of the State of Hawaii to have been affected adversely by this declared major disaster:

The City and County of Honolulu for Public Assistance.

The City and County of Honolulu are eligible to apply for assistance under the Hazard Mitigation Grant Program.
