

Simple cycle combustion turbine means any stationary combustion turbine which does not recover heat from the combustion turbine exhaust gases to preheat the inlet combustion air to the combustion turbine, or which does not recover heat from the combustion turbine exhaust gases to heat water or generate steam.

Stationary combustion turbine means any simple cycle combustion turbine, regenerative cycle combustion turbine or a combined cycle steam/electric generating system that is not self-propelled. It may, however, be mounted on a vehicle for portability.

Unit operating day means a 24-hour period between 12:00 midnight and the following midnight during which any fuel is combusted at any time in the unit. It is not necessary for fuel to be combusted continuously for the entire 24-hour period.

Unit operating hour means a clock hour during which any fuel is combusted in the affected unit. If the unit combusts fuel for the entire clock hour, it is considered to be a full unit operating hour. If the unit combusts fuel for only part of the clock hour, it is considered to be a partial unit operating hour.

Useful thermal output means the thermal energy made available for use in any industrial or commercial process, or used in any heating or cooling application, *i.e.*, total thermal energy made available for processes and applications other than electrical generation. Thermal output for this subpart means the energy in recovered thermal output measured against the energy in the thermal output at 15 degrees Celsius and 101.325 kiloPascals (kPa) of pressure.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 05-289; MB Docket No. 05-35; RM-11134]

Radio Broadcasting Services; Charlotte and Jackson, MI

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition for rule making filed by Rubber City Radio Group ("Petitioner"), licensee of Station WJXQ(FM), Channel 291B, Jackson, Michigan. Petitioner requests that the Commission reallocate Channel 291B from Jackson to Charlotte, Michigan. This request is filed to maintain a first local service at Charlotte, Michigan. If this petition is granted it will eliminate a potential conflict between two licensees in another rulemaking proceeding (MB Docket No. 03-222) who propose to move from Charlotte to two other cities in Michigan. The two proposals in that proceeding are not in technical conflict, but would conflict with the Commission's policy of maintaining local service in a community that might otherwise lose local transmission

service. Petitioner will retain the same transmitter site when its station is reallocated to Charlotte. The coordinates for Channel 291B at Charlotte, Michigan are 42-23-28 NL and 84-37-22 WL, with a site restriction of 30 kilometers (16.1 miles) southeast of Charlotte.

DATES: Comments must be filed on or before March 28, 2005, and reply comments on or before April 12, 2005.

ADDRESSES: Secretary, Federal Communications Commission, 445 12th Street, SW., Room TW-A325, Washington, DC 20554.
