

proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

On April 20, 1999, the FAA published its approval of noise exposure maps for the Augstin-Bergstrom International Airport in the Federal Register. On May 25, 2000, the FAA published its approval of a final 2004 noise exposure map for the Austin-Bergstrom International Airport in the Federal Register. The FAA approved the original noise compatibility program on November 7, 2000, produced during Austin-Bergstrom International Airport, austin, Texas Part 150 Noise Compatibility Study.

The FAA received an update to the noise compatibility program, and published its intent to review in the August 26, 2003, **Federal Register**. The FAA approved the updated noise compatibility program on February 11, 2004.

The FAA has formally received a second update to the noise compatibility program for Austin-Bergstrom International Airport. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise exposure programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before August 10, 2005.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the notice exposure maps, the FAA's evaluation of the maps, and the proposed noise compatibility program are available for examination at the following locations:

Federal Aviation Administration,
Airports Division, 2601 Meacham
Boulevard, Forth Worth, Texas 76137.
Austin-Bergstrom International Airport,
