Title and OMB Control Number: Survey to Determine Economic Costs and Impact to Employers of Mobilized Reserve Component Members; OMB Number 0704-TBD.

Needs and Uses: The information collection requirement is necessary to obtain information from employers about the impact on their organizations when Guard or Reserve members are absent more than 30 days to serve in the military. Understanding the economic impact to employers when Guard or Reserve employees are absent from work to serve in the military is critical to gaining and maintaining employer support. The information collection process will be accomplished using a self-administered survey so that employers can accurately provide cost data, some of which may require consultation with record. The primary objectives of collection of information are: (a) To determine the economic impact on employers when Guard or Reserve members are absent from work to serve in the military; (b) to assess the impact on operations; and (c) to identify ways Department of Defense may be able to better support employers. The findings may provide valuable information concerning: (1) The economic impact when Guard or Reserve employees are absent for more than 30 days to serve in the military; (2) the operational impact and actual employer cost to operations when Guard or Reserve employees are absent to serve in the military; (3) the amount of notice received prior to employees leaving; and (4) employer adjustments made to sustain operations when Guard or Reserve members are absent from work to serve in the military.
