Minerals Management Service

Environmental Documents Prepared for Proposed Oil and Gas Operations on the Gulf of Mexico Outer Continental Shelf (OCS)

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the Availability of Environmental Documents. Prepared for OCS Mineral Proposals on the Gulf of Mexico OCS.

SUMMARY: Minerals Management Service (MMS), in accordance with Federal Regulations that implement the National Environmental Policy Act (NEPA), announces the availability of NEPA-related Site-Specific Environmental Assessments (SEA) and Findings of No Significant Impact (FONSI), prepared by MMS for the following oil and gas activities proposed on the Gulf of Mexico OCS.

FOR FURTHER INFORMATION CONTACT:

Public Information Unit, Information Services Section at the number below. Minerals Management Service, Gulf of Mexico OCS Region, Attention: Public Information Office (MS 5034), 1201 Elmwood Park Boulevard, Room 114,

New Orleans, Louisiana 70123-2394, or by calling 1-800-200-GULF.

SUPPLEMENTARY INFORMATION: MMS

prepares SEAs and FONSI for proposals that relate to exploration for and the development/production of oil and gas resources on the Gulf of Mexico OCS. These SEAs examine the potential environmental effects of activities described in the proposals and present MMS conclusions regarding the significance of those effects.

Environmental Assessments are used as a basis for determining whether or not approval of the proposals constitutes major Federal actions that significantly affect the quality of the human environment in the sense of NEPA Section 102(2)(C). A FONSI is prepared in those instances where MMS finds that approval will not result in significant effects on the quality of the human environment. The FONSI briefly presents the basis for that finding and includes a summary or copy of the SEA.

This notice constitutes the public notice of availability of environmental documents required under the NEPA Regulations.

This listing includes all proposals for which the Gulf of Mexico OCS Region prepared a FONSI in the period subsequent to publication of the preceding notice.

Battle Creek Salmon and Steelhead Restoration Project (Restoration Project) Tehama and Shasta Counties, CA

AGENCY: Bureau of Reclamation, U.S. Department of the Interior.

ACTION: Notice of availability of draft supplemental environmental impact statement/revised environmental impact report (Draft SEIS/REIR).

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (NEPA), CEQ NEPA Regulations (40 CFR 1502.9[c][1]), and Public Resources Code, sections 21000-21177 of the California Environmental Quality Act (CEQA) and the California Code of Regulations, title 14, section 15088.5 of the CEQA Guidelines, the Bureau of Reclamation the lead Federal agency, the Federal Energy Regulatory Commission (FERC), a cooperating Federal agency, and the State Water Resources Control Board (SWRCB), the

lead State agency, have made available for public review and comment a Draft SEIS/REIR for the Battle Creek Salmon and Steelhead Restoration Project (Restoration Project).

The notice of availability of the original joint Draft Environmental Impact Statement/Environmental Impact Report) (Draft EIS/EIR) and notice of public workshop and notice of public hearing was published in the **Federal Register** on Friday July 18, 2003 (68 FR 42758). Numerous comments addressing a wide range of issues were received on the Draft EIS/EIR, with some warranting circulation of supplemental/revised information to the original joint environmental document.

The Draft SEIS/REIR will disclose a new environmental analysis and propose mitigation regarding the increased risk of fish disease infection at private aquaculture facilities through the increase of naturally-spawning Battle Creek salmon and steelhead species under the Restoration Project. In addition, the Draft SEIS/REIR will disclose the potentially significant environmental effects of spreading certain harmful fish diseases from Battle Creek via private trout aquaculture operations that transfer trout from facilities in the Project Area to other State waters. The Draft SEIS/REIR will also disclose information regarding the 8 Dam Removal alternative and its dismissal from further consideration.

DATES: Public comments on the Draft SEIS/REIR should be submitted on or before April 29, 2005, to both Ms. Mary Marshall and Mr. Jim Canaday at the addresses below.

ADDRESSES: Written comments on the Draft SEIS/REIR should be addressed to Ms. Mary Marshall, Bureau of Reclamation, 2800 Cottage Way,
