

DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency****44 CFR Part 67****Final Flood Elevation Determinations**

AGENCY: Federal Emergency Management Agency (FEMA), Department of Homeland Security, Mitigation Division.

ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Doug Bellomo, P.E., Hazard Identification Section, FEMA, 500 C Street, SW., Washington, DC 20472, (202) 646-2903.

SUPPLEMENTARY INFORMATION: FEMA makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Mitigation Division Director has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67.

The Agency has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community.

The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Mitigation Division Director certifies that this rule is exempt from the requirements of the Regulatory Flexibility Act because final or modified BFEs are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

Regulatory Classification

This final rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism

This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform

This rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, flood insurance, reporting and recordkeeping requirements.

■ Accordingly, 44 CFR Part 67 is amended as follows:

PART 67—[AMENDED]

■ 1. The authority citation for Part 67 continues to read as follows:

BILLING CODE 9110-12-P

COMMISSION ON CIVIL RIGHTS

45 CFR Part 703

Membership Requirement of State Advisory Committees

AGENCY: Commission on Civil Rights.

ACTION: Final rule.

SUMMARY: This final rule revises the regulations of the United States Commission on Civil Rights to amend the State Advisory Committee membership criteria to ensure both diversity and nondiscrimination in the State Advisory Committee member appointment process.

EFFECTIVE DATE: This final rule is effective March 20, 2006.

FOR FURTHER INFORMATION CONTACT:

Contact Christopher Byrnes, Attorney-Advisor, U.S. Commission on Civil Rights, 624 Ninth Street NW., Washington, DC 20425. Telephone: (202) 376-7700.

SUPPLEMENTARY INFORMATION: On November 4, 2005, (70 FR 67129) the U.S. Commission on Civil Rights published for public comment its proposed rule change for selecting State Advisory Committee members. Comments were received from thirteen sources, including past and present State Advisory Committee members, a non-profit public policy organization, a lawyers' association, an agency of the Federal Government, and a private citizen.

One notable comment suggested enumerating some specific membership criteria in committee charters, committee bylaws, and the Commission's Federal Advisory Committee Act guidance documents rather than in the regulation. This comment pointed out that, in the unique venue of federal advisory committees, placing criteria in regulations prevents the rapid adaptation necessary to address new and different problems that are certain to arise. According to this comment, the individual committee charters, the committee bylaws, and the agency Federal Advisory Committee Act guidance document could be used more effectively and customized quickly to suit the agency's needs in addressing such problems. Thus, this commenter recommended placing in non-regulatory guidance the provisions contained in sections (c), (d), and (e). This comment suggested that including these as regulatory requirements would be too restrictive, as the Commission's needs for these particular experiences, professions, interests, and affiliations may change over time.
