Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Title 49 Code of Federal Regulations (CFR) Part 211, notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance from certain Federal railroad safety requirements. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Twin Cities and Western Railroad

[Docket Number FRA-2006-26093]

Twin Cities and Western Railroad (TC&W) seeks a permanent waiver of compliance from certain provisions of the Railroad Safety Appliance Standards in 49 CFR part 231, concerning RailRunner® train operations over their system. Specifically, TC&W requests relief from those sections of 49 CFR part 231 that stipulate the number, location, and dimensions for handholds, ladders, sill steps, uncoupling levers, and handbrakes. TC&W also seeks relief from 49 CFR 231.31, which sets the standard height for drawbars.

TC&W states that this waiver is necessary to permit them to begin operation of RailRunner® equipment between Appleton, Minnesota, and Minneapolis, Minnesota. TC&W requests that this petition, if approved, be modeled on conditions contained in waiver FRA-2003-16203, which was granted to the Norfolk Southern Railway and RailRunner® on March 25, 2005.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA in writing before the end of the comment period and specify the basis for their request.
