4. *Necessity of the Collection of Information:* Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provisions of the Federal Power Act (FPA). The collection of this information is specifically required by Federal statute (FPA Section 205(f)) and thus the Commission lacks authority to allow waivers for the filing of this information. In addition, the Commission entertains requests for confidential treatment pursuant to 18 CFR 388.112 for the coal mine price data and coal rail transportation cost data submitted in response to questions 3(i) and 3(1.2), respectively, only when disclosure would violate the terms of a confidentiality clause of a rail transportation contract. The information is used to: (1) Review as mandated by statute, fuel purchase and cost recovery practices to ensure efficient use of resources, including economical purchase and use of fuel and electric energy, under fuel adjustment clauses on file with the Commission; (2) evaluate fuel costs in individual rate filings; (3) to supplement periodic utility audits. The information has also been used by the Energy Information Administration under a Congressional mandate to study various aspects of coal, oil, and gas transportation rates.
